About & Links

ABBC coin (ABBC) is native token for the ABBC blockchain and the governance token for the ABBC DAO, where token holders can delegate their voting power to a proxy and earn the status of a block producer (BP) by staking a portion of their tokens and winning community elections. Block producers then utilize their voting rights to make key decisions regarding the expansion of ABBC's services, partnerships, sponsorships, or the implementation of new blockchain features, all governed by safeguards to prevent vote manipulation.
