Welcome to AgoraHUB

Watch our video teaser here ↗

Incubated by **SwissBorg**, AgoraHub is building the ultimate arena for Web3: a hub of **authentic, gamified experiences** where users **play**, **earn**, and **own** their progression. Our ecosystem merges entertainment, **AGA staking**, **NFT utilities**, and **AI-powered creation** into a **self-sustaining circular economy**—one where engagement can translate into **passive income** via **Relics** and **profit-sharing**.

CRYP2NOVA

> "AgoraHub fuses **fun** and **aspiration** into one experience: you play, **level up**, and that progress can **pay you back**. Every click has purpose—whether you open a lootbox, stake AGA, or complete a quest, you're contributing to a **circular economy** that can return value through **Relics and profit-sharing**. We're building a **fair arena** where **anyone** can unlock real opportunities through **skill, consistency, and community**."
> — **Pierre de Viry, Founder & CEO, AgoraHub**

Our Mission

Bring together innovative projects, engaged users, and forward-thinking investors in a **mutually beneficial** ecosystem. We turn participation into **progression, prestige, and profit-sharing**—so value flows back to the community that creates it.

What is AgoraHub?

A **gamified Web3 ecosystem** where every action feeds the next:

- Open **Lootboxes** (Flash & Infinity) for instant rewards and a shot at a growing **USDC jackpot**
- Enter **Lotteries** with **Golden Tickets** for prestige prizes
- Launch or support projects via **Lootbox Prime** and **Athena** (AI-assisted creation)
- **Lock AGA** to climb tiers (Spartan → Zeus) and unlock yields, access, and perks
- Earn **Relics** through Quests, Missions, NFTs, Referrals—then share in platform profits

Core Pillars

- **Play & Earn**: Instant rewards, jackpots, and lotteries that fuel on-chain fun.
- **Progression**: AGA tiering, Quests, Missions, and Achievements that **never reset** your legacy.
- **Ownership**: NFTs (characters & collectibles) with **real utility** and compounding bonuses.
- **Creation**: **Athena** lets anyone launch gamified campaigns across chains in minutes.
- **Passive Income**: **Relics** convert long-term engagement into **profit-sharing**.
- **Sustainability**: **AGA burns** + token sinks in the **Shop** keep the economy healthy.

Product Snapshot

- **Lootbox Flash**: Time-boxed, high-energy drops with USDC, AGL, Golden Tickets.
- **Lootbox Infinity**: 24/7 play with **Free Infinity Tickets** and a **progressive USDC jackpot**.
- **Lootbox Prime**: The most **gamified launchpad** for early tokens, NFTs, and perks.
- **Lootbox Athena**: **AI-powered** lootbox creation for projects, KOLs, and communities.
- **Lottery**: One winner per pot—**high stakes**, transparent, community-driven.

Who It’s For

- **Users** seeking fun, fairness, and **passive income** through engagement.
- **Builders & KOLs** wanting AI-assisted launches and gamified growth.
- **Investors** who favor transparent mechanics, **deflationary** tokenomics, and aligned incentives.

What You’ll Find in This GitBook

- **Vision & Economics**: How the circular economy works (AGA tiers, burns, Relics).
- **Products**: Flash, Infinity, Prime, Athena, Lottery—clear UX and flows.
- **Progression Systems**: Quests, Missions, Achievements (Hauts Faits).
- **NFTs & Collectibles**: Utility layers, badges, boosters, and profit-sharing synergies.
- **Shop**: Token sinks, upgrades, tickets, and Mystery Boxes.
- **Roadmap & Governance**: What’s next and how the community helps steer it.
