Getting Started

# Getting Started

Everything you need to start using Amper. One agent, one message, any chain.

Chat with Amper0.1.0

Talk with Amper, made simple.

Create Tasks1.0.0

Automate work, get notified.

Amper is a DeFi automation agent. Connect your wallet, describe what you want in plain language, and Amper handles execution across protocols and chains. Swaps, bridges, lending, perps, strategies, all from a single message. Non-custodial, privacy-first, and fully transparent.
