# Welcome

## Welcome

ANT.FUN is a Web3 Social Trading Wallet that combines self-custody wallet access, DEX trading, real-time market discovery, social rooms, AI assistants, and community-based trading signals in one platform.

The Welcome section introduces the product, explains the basic user journey, and helps new users understand how ANT.FUN connects wallet management, trading execution, market data, and social interaction.

Users can begin by learning what ANT.FUN is, then move through the quick start guide to create or import a wallet, explore market pages, join social trading channels, and execute their first trade.

### Section Coverage

- The core ANT.FUN product concept.
- The main user groups ANT.FUN serves.
- Basic setup and navigation.
- Frequently asked questions about wallet, trading, social features, AI tools, and risk.
