ASSISTERR WHITE PAPER v1.0

Copy

White Paper Introduction

v1.0; May 29, 2025

This white paper introduces **Assisterr** — a decentralized AI platform that empowers users to build, tokenize, and monetize intelligent agents through no-code tools and blockchain-based incentives. As AI becomes a foundational layer of the global economy, Assisterr provides the infrastructure for open, scalable, and community-owned AI development. This document outlines the platform's vision, technology, tokenomics, and roadmap — defining a new standard for decentralized intelligence.

This white paper v1.0 marks the beginning of a new and pivotal chapter for Assisterr, building upon the team's initial vision as outlined in the Litepaper v1.0, available at https://www.assisterr.ai/litepaper-assisterr.pdf ↗
