Here you will find all the important information about our project, our vision, and how we are aiming to continue Ryoshi's vision to introduce BabyShiba grandly into the Shiba kingdom.

You can browse the parts of the whitepaper as you please to pick up information using the column on your left, or read it in order, to keep it consistent. It has been designed so that both types of reading are possible.

Should you have any questions related to the content of this whitepaper or the project itself, our staff will answer to you in our *Telegram* group. You will also find an FAQ section at the end of this Shibpaper.

Our Tokenomics:

Total supply: 420*,000,000* $BABYSHIB tokens.

90% of the total supply goes to the Uniswap's liquidity pool.
10% of the total supply is reserved for CEXs listings and partnerships (locked and vested).
