BMA Token Whitepaper

Powering the Affiliate Economy through 3FO, BASE, and MTEAM119

1. Overview

Token Name: BMA Token
Symbol: BMA
Total Supply: 119,000,000 BMA
Initial Price: 1 USD / BMA
Blockchain: BASE
Pool Pair: BMA/ETH
Transaction Tax: 10%
Official Websites:

- 🌐 bmatoken.com
- 🌐 mteam119.com

2. Introduction

BMA (MTEAM119) represents the convergence of three powerful ecosystems:

- **B** — *BTC20 Smart Chain*: The foundational blockchain ecosystem

Archived copy · cryp2nova.com

driving scalability and smart yield.

- **M** — *MTEAM119*: The global affiliate and community-driven movement that underpins the 3FO network.

- **A** — *Affiliate Marketing (3FO)*: The decentralized affiliate operating system redefining Web3 passive income.

Together, **BMA** is designed to fuel the next-generation affiliate economy — bridging reward automation, staking yield, and decentralized participation under one unified asset.

3. Mission & Vision

Mission

To empower communities through blockchain-backed affiliate ownership — transforming every participant into a stakeholder in a transparent, yield-driven economy.

Vision

To become the foundational asset of the **3FO ecosystem**, driving liquidity, staking rewards, and AI-driven expansion of the **Shavez AI ecosystem**.

5. Issuance & Reward Mechanism

BMA's issuance mechanism is directly linked to the **3FO Affiliate OS** performance and the MTEAM119 account.

- **60%** of all commissions and rank rewards within 3FO are utilized to **generate new BMA daily**.
  (Only the MTEAM119 account can mint BMA tokens.)

- **30%** of the generated BMA is **injected daily into the public BMA pool** at market price to ensure liquidity, circulation, and price stability.

This hybrid mint-and-market mechanism ensures **sustainable token flow** that grows alongside real economic activity rather than speculation.

CRYP2NOVA

6. Core Value Proposition

BMA embodies the shared value of affiliate success and DeFi participation:

- **Community-Backed:** Minted through active affiliate contribution and rank performance.

- **Yield-Driven:** Designed to scale returns through staking, trading, and liquidity incentives.

Archived copy · cryp2nova.com

- **AI-Powered Expansion:** Directly tied to the growth of the **AI Shavez ecosystem**, merging affiliate intelligence with automated yield systems.

- **Transparency First:** On-chain tracking of minting, pool injection, and burn schedules.

7. Staking & Liquidity Mechanism

BMA/ETH Staking Model

Holders can participate in **BMA/ETH staking pools** to earn compounded rewards while supporting liquidity stability.

- **Staking Rewards:** Earn daily or weekly yield proportional to staked liquidity.

- **Community Bonus:** Extra incentives for MTEAM119 participants through the 3FO interface.

- **Smart Distribution:** Automated staking contracts ensure transparency and verifiable reward flow.

8. Governance & Compliance

BMA adheres to BASE chain standards for compliance, scalability, and low gas operations.
Future governance upgrades will include:

- **DAO Voting:** Allowing MTEAM119 members to propose and vote on ecosystem decisions.

- **Automated Auditing:** Real-time verification of mint, burn, and liquidity contracts.

- **Cross-Chain Expansion:** Planned interoperability with BTC20 Smart Chain and Ethereum mainnet.

9. Roadmap

Phase

Milestone

Description

Q4 2025

Token Launch on BASE
