👋Welcome to Bonsai DAO

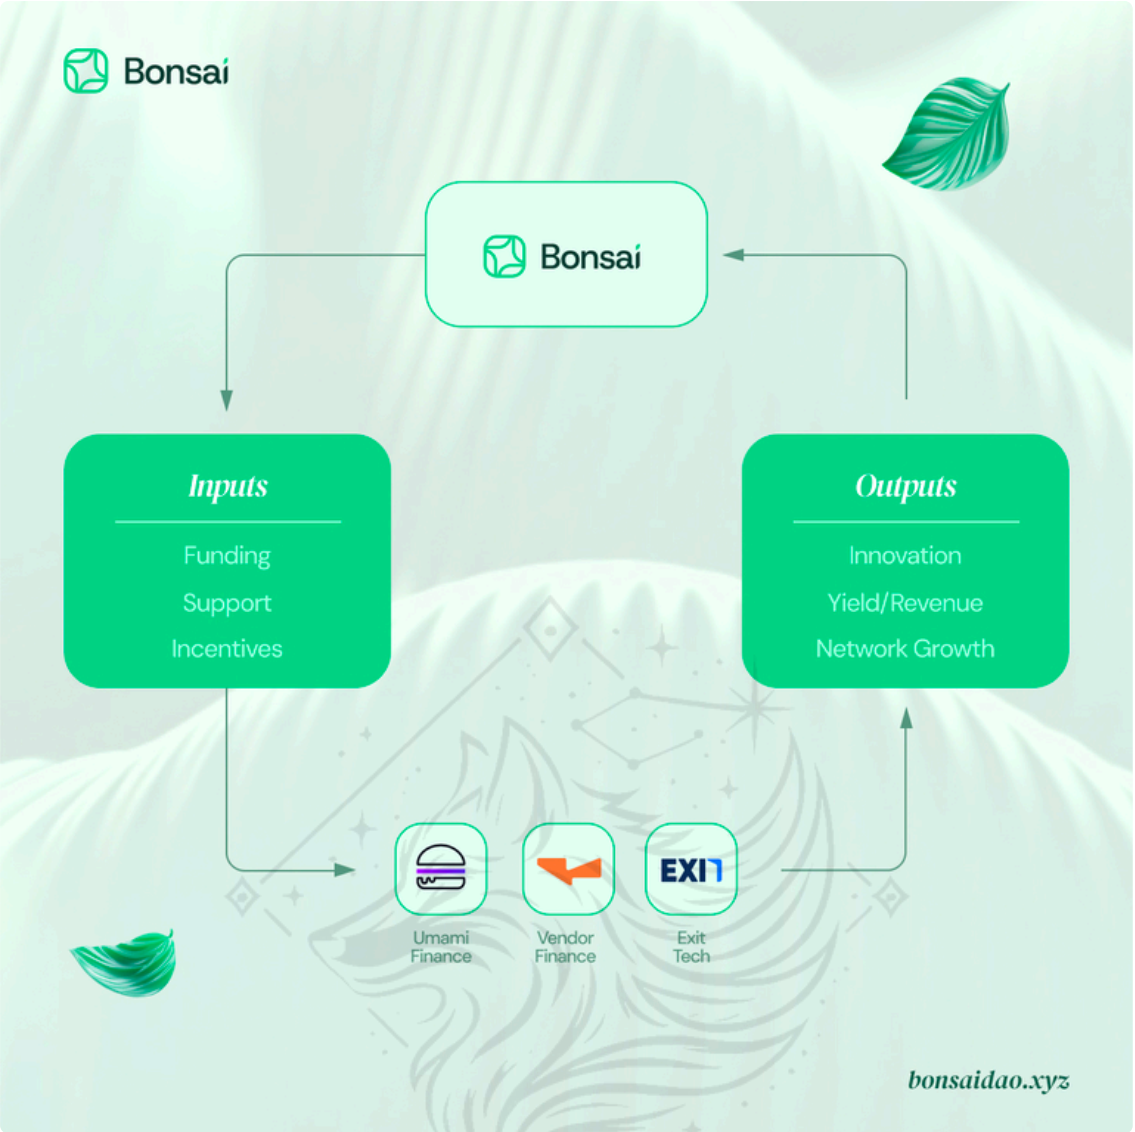

At Bonsai DAO, we strategically invest in decentralized innovation. We operate as a decentralized venture studio—a MetaDAO specializing in strategic capital allocation to incubate, fund, and launch interconnected DeFi products. These independently operated initiatives—called Leaf spinouts, or simply **Leaves**—work together, sharing value and driving ecosystem growth.

Our mission is to foster an agile, collaborative, and scalable DeFi ecosystem through thoughtful investment, rigorous innovation, and aligned incentives. By strategically nurturing independent yet complementary projects, we accelerate impactful innovation, strengthen value alignment across the Bonsai ecosystem, and position sustainably for any market conditions.

Each Leaf indirectly strengthens and enriches the broader Bonsai ecosystem through individually designed mechanisms matching their unique strategies and business models. The overall success of Leaves aligns closely with ecosystem prosperity, supporting long-term decentralized innovation and sustained value creation within Bonsai DAO and its community.

Purpose and Vision

Our vision is to create a robust ecosystem where decentralized ventures thrive—empowered by strategic capital allocation, expert support, and transparent governance. By actively supporting and launching innovative DeFi spinouts (Leaves), Bonsai DAO aims for mature, sustainable growth, positioning itself as a resilient ecosystem built for the long term.

Core Values

Integrity

Bonsai upholds the highest standards of transparency, accountability, and ethics. We stand steadfast in our commitment to the foundational values of DeFi.

Advocacy

As passionate advocates for our ecosystem and DeFi at large, Bonsai proactively engages stakeholders beyond crypto-native communities, connecting meaningfully with diverse users and partners alike.

Principled Pragmatism

Bonsai is open to adopting best practices from outside the realm of DeFi, as long as they align with and advance our mission. We never waver in upholding our core values.

Decentralization

At Bonsai DAO, power and decision-making authority firmly reside with the community. The community collectively determines our future direction.
