The Plan

$ZHOA is a hilarious meme-coin that celebrates CZ's life and achievements by parodying all his biggest moments, his appearance through humorous animation, and even his name has been slightly changed to make it clear that we are in fact a parody and caricature of him; not an imitation. Proudly proclaimed as the mascot for BNBChain by its holders, $ZHOA aims to onboard former users back onto BNB while welcoming newcomers to the ecosystem. With humor and the support of a loyal community, $ZHOA transforms every tweet, interview, or public appearance by CZ into engaging content, fostering a vibrant connection between his influence and the exciting world of memes and cryptocurrency! The narrative surrounding CZ has infinite catalysts as his story is still unfolding right in front of us.

$ZHOA: Community Focused Utility

The primary utility of any meme-coin is the community itself and their belief in the meme. When a meme is loved and adopted, a community can be built around it. Once this reaches critical mass, the community can decide to focus their attention on any agreed upon utilities and make them a success. Chengpang Zhoa encourages all their supporters to be a part of the process and make contributions to the $ZHOA ecosystem.
