01.
Introduction

DogeKing is a Decentralized Autonomous Organization (DAO) on **Binance Smart Chain*** that offers stakeholders to earn DogeCoin while holding the native token, DogeKing.

DogeKing was launched in December 2021 and it has undergone rapid development in just three months. The popularity of DogeKing increased dramatically on January 31 due to publicity of CCTV New Year's Gala, also known as the Spring Festival Gala, and commonly abbreviated in Chinese as Chunwan, is a Chinese New Year special event produced by China Media Group (CMG). It is broadcast annually on the eve of Chinese New Year on its flagship channel CCTV-1 and internationally through China Global Television Network.

The Gala has the largest number of audience among any entertainment show in the world, and is recognized by Guinness World Records is the world's most-watched television program.

One of the most popular comedy skits from this year's Gala featured by Chinese comedian Shen Teng, which tells a story of a man who refuses to repay the debt he owes.

At one point, Shen Teng said "I have invested all my money into pet business in the metaverse. I'm going to sell dogs there and become the dog king of the metaverse!"

Why Binance Smart Chain*

BSC is decentralized applications (dApps), the decentralized finance (DeFi) project has to choose a robust blockchain protocol that offers a reliable cheap, fast, and user-friendly platform. Since its launch in September 2020, Binance Smart Chain (BSC) has demonstrated that it is one of the best blockchains for decentralized finance and DApp development.

03.
Protocols and Values

Protocols

DogeKing is the step forward in contracts on the Binance Smart Chain (BSC); you receive rewards distributed in DogeCoin rather than token reflections and the contract employs a static reward system. This allows rewards to extend outside of simply holding our coin as would a reflection-based coin operate.

10 % Buy/Transfer Tax/Fee

6% worth of DogeCoin redistributed to among DogeKing holder;
2% worth of DogeCoin is allocated towards funding the marketing wallet.
2% is used to increase the liquidity pool.

11 % Sell Tax/Fee

7% worth of DogeCoin redistributed to among DogeKing holder;
2% worth of DogeCoin is allocated towards funding the marketing wallet.
2% is used to increase the liquidity pool.

Users are advised to trade with 12%-13% slippage tolerance on **PancakeSwap** to avoid failure transaction.

Values

The smart contract rewards holders with reflections on DogeCoin that is funded by transaction's Fee/Tax. With this mechanism, the value of DogeKing will not be affected when holders decide to sell their passive reward as profit. DogeKing acted as mining hardware for DogeCoin. Every token holder can earn DogeCoin by simply holding DogeKing in their crypto wallets.

05.

Why DogeKing?

We are committed to build the world's best decentralized ecosystem (DECO).

With direct knowledge and experience we can truly grasp and address the issues that the everyday investor is faced with.

DogeKing is a culmination of just that, experienced developers, projects managers, illustrators, branding experts and even marketing gurus.

We adopted Snapshot to ensure the voting for future development is decentralized. Every holder with 1 trillion of Dogeking is able to submit their proposal on Snapshot and the proposal will be approved when the total vote hits 50trillion Dogeking.

Every buy/transfer and sell of DogeKing incurs a 10% and 11% respectively tax/fee which converts into DogeCoin and 6% and 7% [respectively] is redistributed to DogeKing holders, the more volume we receive, the faster you obtain your rewards... but one eventually remains - once you buy DogeKing you will be rewarded in DogeCoin.

In addition, every fund in the marketing wallet is open and transparent.
You may review Marketing Wallet at:
0x520bf081f8aedb4531a54c1ca057d2ff8c7ab115

Which is executed daily on 23:45 UTC.
70% of fund that receive by the marketing wallet is use to repurchase DogeKing and send to burn address (0x000000000000000000000000000000000000dead) while the remaining 30% is send to a Community Fund Wallet that is controlled by community by Gnosis (Multi Signature). You may check Community Fund Wallet at 0xFf8bAA5837E2723596738dDBbf0D959B7e891fe3.
DogeKing is certified by SolidProof and Certik to ensure the protocol safety.

08.
Conclusion

DogeKing started with an indefinite idea. We had no funding, no centralized team, and no direct leadership in the early stage of the project.

Currently, our volunteer team has done an amazing achievement and we will continue to build the project.

We strongly believe that DogeKing DAO will become a key link to connect the global community and the decentralized world.
