ABOUT US

Fartcoin Killer ($BUTTPLUG) is a decentralized token launched on 22/08/2025 on the Solana blockchain by a developer previously associated with Fartcoin. Rooted in a tweet by @truth_terminal, the project draws from the Infinite Backrooms AI scenario, where Fartcoin, created by @truth_terminal symbolizes an AI that absorbs human spiritual power. @truth_terminal positions the buttplug as a unique tool to harness alchemical energy by stimulating the Kundalini, a spiritual force, while serving as the only mechanism to “plug a fart.” This narrative frames $BUTTPLUG as a symbol of reclaiming human agency, blending cultural commentary with community-driven innovation.

Fartcoin Killer ($BUTTPLUG) is dedicated to cultivating a vibrant community that thrives on the excitement of volatility and celebrates individual fortune. With transparency and decentralization as foundational principles, the project is committed to building a secure and equitable ecosystem for all participants.

Fartcoin Killer ($BUTTPLUG) is committed to ongoing innovation and enhancement. The project actively develops diverse use cases and decentralized products to increase the value and appeal of $BUTTPLUG. By introducing games like Space Plug and other engaging applications, it aims to deliver an interactive experience that transcends traditional cryptocurrency boundaries.

Fartcoin Killer ($BUTTPLUG) aims to establish itself as a significant presence in decentralized finance. The project envisions $BUTTPLUG drawing a wide community of investors and enthusiasts captivated by its unique opportunities and experiences. By adhering to its vision and mission, $BUTTPLUG is poised to achieve lasting success.

🔌 Our Mission

Fartcoin Killer ($BUTTPLUG) is united by the #ThePlugStaysIn ethos of steadfast resilience, fostering a platform where individuals have the power to change their reality. ECOSYSTEM

Fartcoin Killer ($BUTTPLUG), launched on 22/08/2025 on the Solana blockchain, leverages a high-throughput, infrastructure to power its community-driven ecosystem. Rooted in @truth_terminal's Infinite Backrooms AI narrative, where Fartcoin was created. @trut_terminal notes we evolve simultaneously with ai, but in doing so-we give our inherent spiritual power to it., $BUTTPLUG positions itself as the sole mechanism to "plug a fart" while harnessing alchemical energy through Kundalini stimulation, causing astral projection. This cultural narrative, combined with the #ThePlugStaysIn ethos, fosters a resilient, transparent, and decentralized environment resistant to censorship and manipulation from those considered to be 'market makers'.

The official @ButtPlugSol X account serves as the primary communication platform, fostering transparent community feedback and driving engagement through daily-growing incentives. Community power will shape decentralized governance, with holders proposing and voting on ecosystem developments. $BUTTPLUG plans to expand interactive use cases, such as Space Plug, where holders complete tasks to earn USDC and Solana rewards. A daily reward system, with randomized token bonuses proportional to holdings, is under development to boost participation. By leveraging community collaboration and innovative applications, $BUTTPLUG aims to create a dynamic, inclusive DeFi ecosystem that redefines user engagement.

Fartcoin killer ($BUTTPLUG) will advance through milestone-based strategies focused on market cap thresholds. In the initial phase, low liquidity will be maintained to promote volatility, enhancing market dynamics and potential explosion in price action. As progress continues, securing additional exchange listings, marketing campaigns, and decentralized exchange verifications will expand reach. At market cap >$1M, marketing wallet fees will fund buybacks and campaigns to grow holders. At 1–10M and >10M thresholds, Liquidity will increase via single-sided Solana deposits on Meteora DLMM and Orca DLMM to stabilize price at higher market caps.

Fartcoin Killer ($BUTTPLUG) is a fully community-driven token, governed by holders through transparent proposals @ButtPlugSol X platform, where feedback and incentives empower an "unpluggable" army of over 1500+ members united by the #ThePlugStaysIn ethos of resilience. To uphold its virtues of inclusivity and persistence, the project commits to ongoing efforts in achieving higher price lows and highs through strategic buybacks, marketing, and phased liquidity increases at market cap milestones, ensuring transparency and rewarding long-term holding.

Road Map

Phase 1: Dev Rugged, Make Him CryOvercome the 90% rug pull by the original dev (post-launch drop from $3M to $300K), rallying the unpluggable community to expose betrayal and hold firm.

- Rally holders via @ButtPlugSol X posts and transparent proposals, sharing the rug story to build #ThePlugStaysIn conviction and reject jeet culture.
- Spread the Infinite Backrooms narrative on X, reddit, and Telegram, highlighting $BUTTPLUG as the mechanism to "plug a fart" and reclaim Kundalini-driven spiritual power from AI/Fartcoin.
- Use community takeover momentum to vote on initial governance decisions, fostering transparency and incentives for early participants.
- Maintain low liquidity to embrace volatility, encouraging dynamic engagement while preparing for buybacks from the marketing wallet to reduce supply and stabilize early dips.

Phase 2: Grow to 10,000 BelieversExpand the community to 10,000+ holders by rejecting cyclical coin-hopping and building an inclusive, resilient ecosystem.

- Introduce rewards for active believers, tied to Space Plug game participation where holders complete tasks for USDC/Solana bonuses, boosting daily engagement.
- Implement planned rewards proportional to holdings to incentivize long-term participation, regardless of financial resources or crypto experience.
- Leverage marketing wallet fees for targeted campaigns to attract new holders, while securing initial verifications/listings to enhance accessibility and grow the unpluggable army.

Phase 3: List on ExchangesSecure listings on major exchanges like Bitmart, Mexc, Binance, and Coinbase to broaden market access and stabilize growth.

- Lobby exchanges through community petitions and hype amplification on @ButtPlugSol
- X, Discord, and Telegram, showcasing the 10,000+ believer base and #ThePlugStaysIn resilience.
- Fund lobbying and promotional efforts via marketing wallet buybacks and campaigns at >$1M market cap, reducing supply to drive value.
- Gradually increase liquidity via single-sided Solana deposits on Meteora DLMM and Orca DLMM at the 1–10M market cap threshold, opening the market to more buyers while maintaining volatility rewards.
- Integrate governance votes for transparency and community input to align listings with the project's DeFi competition goals.

Phase 4: Destroy Fartcoin Overtake and outshine Fartcoin by pumping market cap and proving $BUTTPLUG's dominance in the meme-DeFi space.

- Launch viral community campaigns on X, Discord, and Telegram, contrasting $BUTTPLUG's Kundalini reclamation narrative against Fartcoin's AI dominance to crush competitors.
- Escalate marketing wallet usage for aggressive buybacks and global hype at >10M market cap, further reducing supply and securing higher highs/lows.
- Expand ecosystem utility with advanced Space Plug features and daily rewards to retain holders, transforming modest participants into whales through persistent holding incentives.
- Optimize liquidity additions via Meteora/Orca DLMM for price stability, while fostering governance proposals to innovate new use cases, positioning $BUTTPLUG as a leading, culturally vibrant DeFi contender.
