Guardian Platform

Guardian Platform

GuardianPlatform.io

What is the Guardian Platform?

The Guardian Platform is a data-rich source of digital asset information and tools compiled into one online location to assist users with research and strategy execution. Our objective is to create a framework where users can build a personalized dashboard which contains the information they utilize on a frequent basis. No more bouncing all over the internet to find and use your tools!

Users who create free MyGuardian accounts have full access to the **MyGuardian Dashboard** which contains all the popular tools and links for rapid data retrieval. The Dashboard contains a massive collection of tools: Technical Analysis, Token Data, Exchange Data, News, Wallet Directory, Global Markets, Fiat Tools, Blockchain Explorers, Security Tools, Bubble Maps, Ecosystems, and many other useful tools and widgets.

Create your account and build your dashboard!

Objective:
Provide a comprehensive source of cryptocurrency data and tools within a framework that users can customize to align with their research and investment strategies.

Goal	Outcome
Provide users with a single online platform which contains data, tools, widgets, and information they can rapidly access and review.	- Increased speed of data retrieval - One location with hundreds of sources - Focused content with less distractions - Adapts with popularity, trends, and patterns - Broad with industry & industry-related coverage
Create a user-defined dashboard that users can personalize to align with their research, education, and investment strategies.	- Focus on what you want to focus on - Start and end your day on one site - Easily manage your account, profile, and data - Manage public or private data visibility - Flexible and customizable to match your strategy
Provide projects, programs, communities, and related initiatives with direct exposure to a massive and growing global community.	- Exposure to a much broader audience - Share project news, tools, and updates - Affordable advertising costs, no gouging - Select pages and target page locations - Customize time periods and cycles
Maintain an environment which remains diverse and open-minded as the industry grows and matures.	- Adapts with industry growth and maturity - Follows trends that are moving the industry - Provide user-requested data and information - Sharing innovative ideas is a key growth metric

CRYP2NOVA

The Guardian Platform utilized a phased development approach using both internal and external development teams. Phases are executed using industry standards and best practices to ensure a comprehensive SDLC approach is maintained. The purpose of the platform is to provide digital asset enthusiasts with a single location to review related information. Guardian Platform and the **MyGuardian User Platform** will continue to adjust and adapt as the industry matures and grows.
