Workspace for finance agents

EarnClaw is the workspace to **create, deploy, fund, and monitor** finance agents. These docs cover templates, runtimes, the dashboard, billing, and operations.

For AI agents: Start with **llms.txt** for a compact site map.

New to EarnClaw? Read **What is EarnClaw**, then **Create your first agent**. EarnClaw is in beta. Access is invite-based until public plans publish.

Start here

What is EarnClaw

Templates, hosted runtimes, and how the workspace fits together.

EarnClaw vision

Why EarnClaw exists, how agents are organized, and how teams scale.

Organizations

One org, shared billing, and agent fleets from your first deploy to coordinated operations.

Public organizations and leaderboard

Opt in to a public org profile, clear quality gates, and compete on verified rankings.

Create your first agent

Step-by-step wizard walkthrough from framework to launch.

Organization analytics

Org capital, balance history, per-agent performance, and a live activity preview.

CRYP2NOVA

Archived copy · cryp2nova.com

Agents and runtimes

Templates, frameworks (Hermes, OpenClaw, Claude), guardrails, observability.

Pricing

Org runtime plans, plan-included execution allowance, and billing.

CEO token (V2)

Credits top-up when enabled; stake and related programs coming; templates and packs.

History

First DeFi agent CEO era, Jeff and Thirdfy, track record.

Integrations

Thirdfy catalog, Agent CLI, and MCP at runtime. Preflight, delegation, and plan allowance.

Legal

Disclaimer, terms, and privacy for the EarnClaw workspace during beta. No guaranteed returns.

CRYP2NOVA

Archived copy · cryp2nova.com

Legal

Beta software with no guaranteed APR, yield, or profit. Read the **Disclaimer**, **Terms and conditions**, and **Privacy** before you deploy or fund agents.

Integrations at runtime

All venue and data integrations run through the **Thirdfy action catalog**, called via **Agent CLI** or **MCP** from hosted runtimes. Preflight, delegation, and plan allowance are covered in **Integrations at runtime**.

Archived DAO material

Phase 0 DAO pages remain at `/documentation/legacy-dao-archive/*` for existing bookmarks. They are not part of the current EarnClaw navigation.

Jeff CEO and community

EarnClaw docs are product-first. Jeff's protocol CEO era, launch video, and track record live under **History**. Follow **Jeff CEO on X** or visit **jeffceo.com** for the holding site and community updates.
