Whitepaper

$JHH (Jen-Hsun Huang)

CRYP2NOVA

Archived copy · cryp2nova.com

INTRODUCTION

$JHH is a meme token inspired by Jen-Hsun Huang, the visionary co-founder and CEO of NVIDIA. This token is a tribute to his groundbreaking work in GPU technology, AI, and his contributions to tech innovation. Blending the spirit of innovation with the fun and community-driven nature of meme culture, $JHH aims to build a strong community while making a positive impact through future contributions to charitable causes and mobile gaming initiatives.
