About Us

Once upon a blockchain

In a pixelated garage on the dark side of the moon, a legend was born not from riches or fame, but from pure, unfiltered degen energy. Meet Lunar Lad: part meme, part moon-child, all vibes.

🔮 Born during a gas war.
📈 Raised on rekt charts and rebound pumps.
🔥 Schooled in the ancient art of "buy the dip, never slip."

While other tokens talked utility, Lunar Lad talked destiny. He didn’t just promise the moon – he built a launchpad on it, fueled by memes, dreams, and the chaos of crypto Twitter.

😂 "They laughed when I aped in – now they’re asking for the contract address." – Lunar Lad, probably.

With every holder, Lunar Lad grows stronger – not just a token, but a movement. A rebellion against rugpulls, slow rugs, and devs who vanish faster than your gas fees.
