MANSA AI Litepaper

Copy

Mansa AI is a pioneering on-chain AI platform designed to integrate multiple leading AI technologies, including Gemini, OpenAI, Cohere, Anthropic / Claude AI, ElevenLabs, and StabilityAI. This platform serves both enterprises and individuals, offering scalable, robust AI capabilities with the enhanced security and efficiency of blockchain technology.

Mansa AI's AgentCraft is a low-code framework designed for rapid development, testing, and iteration of AI-powered autonomous agents and cognitive architectures. Compatible with a range of LLM models—including OpenAI, Google's Gemini, Anthropic's Claude, and local models via Ollama or LMStudio—it offers the flexibility to run different models for different agents based on your specific needs.
