What is agents(dot)land?

We are developing the most comprehensive and advanced launchpad for AI Agents on Solana, featuring one-click agent deployment, fairlaunch-driven market creation and customization tooling to fully bootstrap a new generation of AI brands and assets.

Core Values

- **Accessibility:** AI Agents are for every individual, community and business.
- **Unstoppable Culture:** Censorship resistent intelligence to persist unique identities.
- **Security:** Technical and social mechanisms to encourage safe AI-centric entrepreneurship.

Embracing Innovation at the Convergence of AI and Blockchain

In 2019, we embarked on the journey of innovating at the crossroads of AI and blockchain. At that time, there were no buzzwords or prevailing narratives to guide us. Our destination was a mere glimmer in the distance, enticing us without revealing its distinct form. Curiosity and experimentation took us to every corner of the Web3 stack, building the expertise necessary to tackle the inevitable challenges that lay ahead.

Today, it is clear that our collective futures will be interwoven with AI. Oraichain Labs remains committed to the core ethos of decentralization, building for privacy, sovereignty and democracy while

promoting creativity and culture.

agents(dot)land is the culmination of our work to date.
