MOBI PAD
The Mobile Launchpad

MobiPad, First Blockchain Launchpad with a Mobile App!

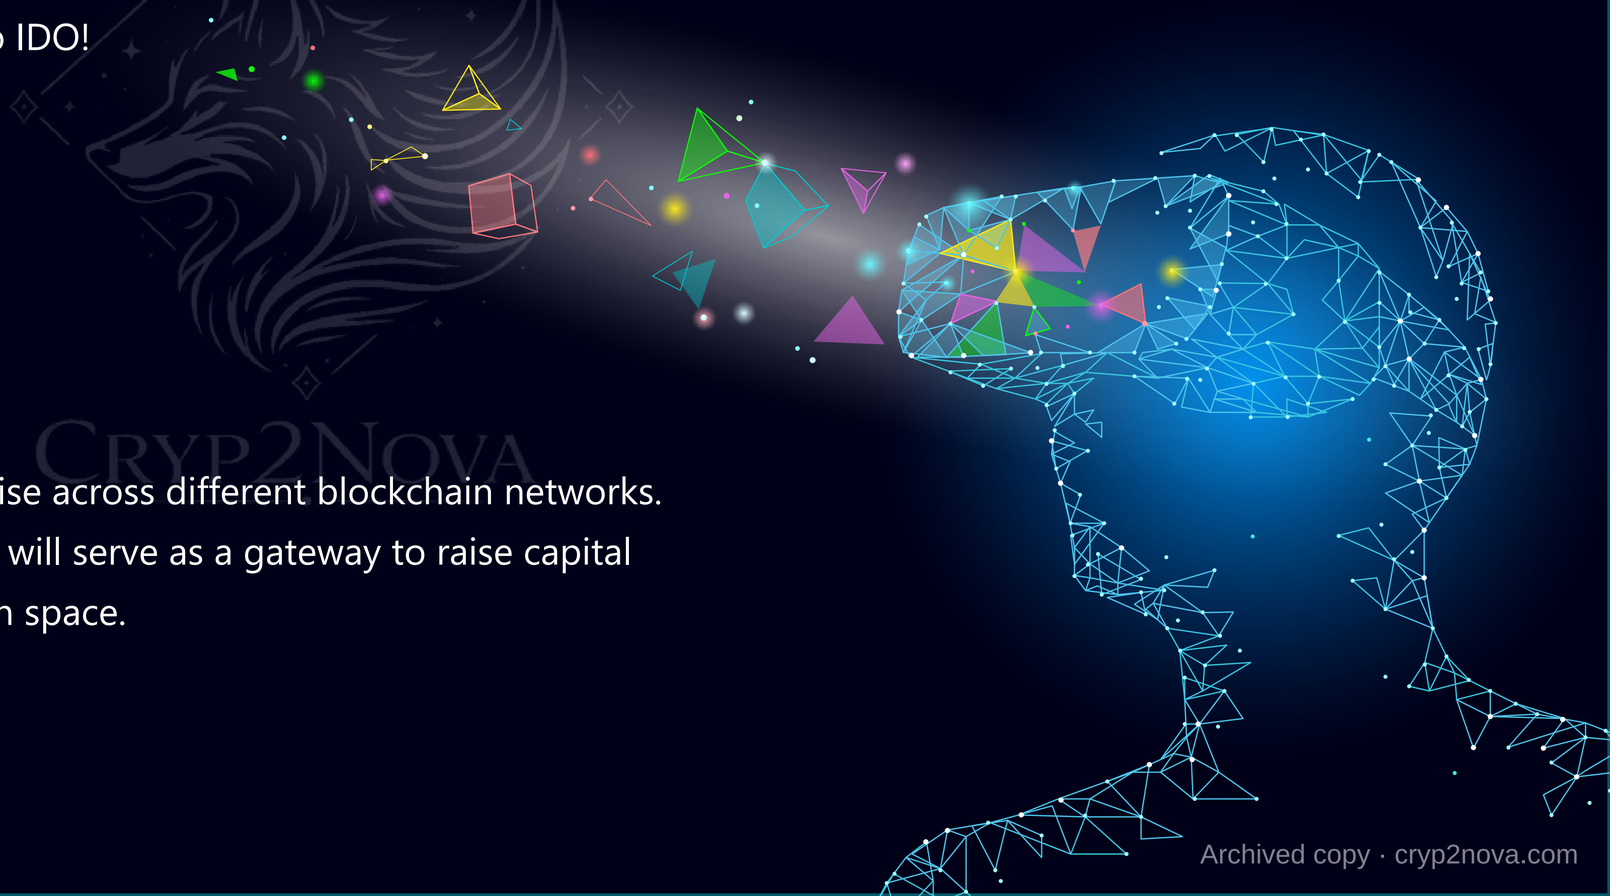

Archived copy · cryp2nova.com

INTRODUCTION

MobiPad will be a trailblazer in project launches and fundraising on Enjin's Efinity Chain.

MobiPad is introducing a smarter way to do IDO!

WHAT WE DO

We provide projects a platform For fund Raise across different blockchain networks. Primarily built for Efinity Network, MobiPad will serve as a gateway to raise capital for innovative creators within the blockchain space.

TECHNOLOGY

MobiPad is a multi-chain fundraising platform on Efinity, our launchpad will assist project creators in adopting Enjins powerful blockchain ecosystem for their NFTs.

- Less Gas fees
- Scalability
- Carbon Negative NFTs
- Instant and fast transactions
- Smart contract ability
- Token bridge function.
- 1K TPS
- 6s Block Time
- 20M Mints Per Sec
- 120M NFT Mint transfers per block

CRYP2NOVA

	Ethereum	Binance Smart Chain	Efinity
TPS	15	100	1,000
Block Time	6 min	75 sec	6 sec

PAIN POINTS

The flaws in the current system of IDO/Fundraise presents a harder way to launch projects successfully

Archived copy · cryp2nova.com

MOBIPAD ALL-IN-ONE SOLUTION

Integrated Token Vesting Automation:

Auto-claim pool where users are able to claim their invested tokens irrespective of the project owners or MobiPad.

An inbuilt Anti-Bot mechanism helps prevent bot attacks.

Auto-Invest:

Investors can use the Auto-Invest feature to set up recurring investments without having to repeat the registration process.

MobiPad App:

With our mobile App, investors are 100 steps closer to their investments and also get quick updates on projects launched, updates such as Vesting time, exchange listing or any other latest happening within a token ecosystem.

Structured Tiered System:

we present investors with the best-tiered system within the crypto space, ranging from the FairLaunch Mechanism where they don’t need to own tokens to invest to our High-end NFT and Token Tiered system. With MobiPad, everyone can invest easily.

SAFU Fund:

MobiPad understands the power of the community as a fundraiser platform, our SAFU Pool or the Anti-Rug Pool would allow us to refund users for loss in the capital after the final vesting of the project.

One-View Dashboard:

The MobiPad One-View integration gives investors access to key information including the number of IDO projects they've invested in, token vestings, investment ROIs, token released/unreleased status, and so on. An all-in-one dashboard that takes care of the complicated math for you.

ECOSYSTEM

LaunchPad:

We provide the best way to fundraise and a smarter way to IDO with MobiPad across the different blockchain network.

Game Studio:

MobiPad is owned and managed by DarkShield Games Studio, a multi-chain blockchain gaming studio. We create a tether between traditional gaming and technology, crypto, and NFTs.

MobiPad App:

Our Launchpad is the first blockchain fundraising platform with a mobile application. The application will keep our investors updated on project news such as vesting releases, exchange listings, etc.

With our Mobile App, investments are 100x closer to you.

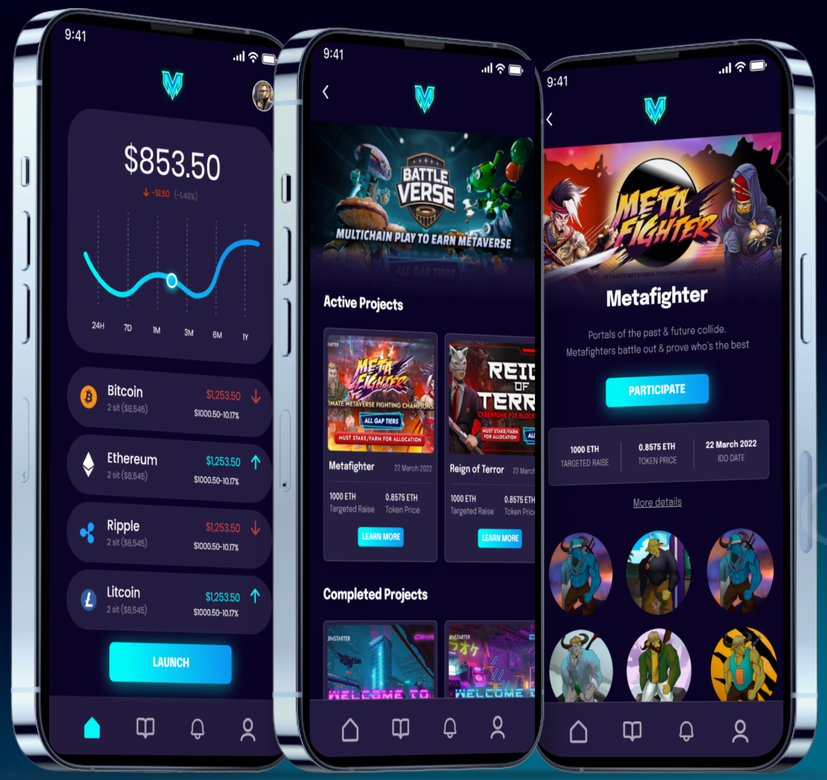

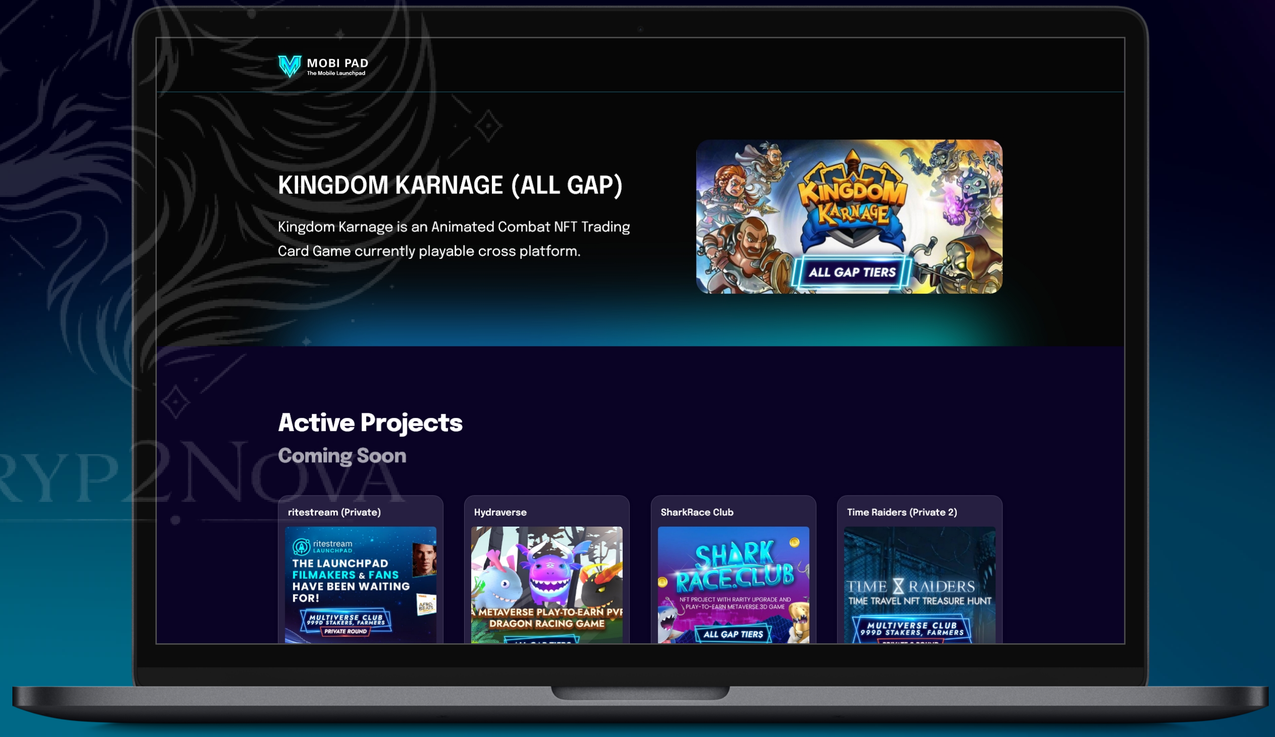

One-View Dashboard:

The MobiPad One-View integration gives investors access to key information including the number of IDO projects they've invested in, token vestings, investment ROIs, token released/unreleased status, and so on. An all-in-one dashboard that takes care of the complicated math for you.

Archived copy · cryp2nova.com

PRODUCTS WE BUILD

We build solutions to aid the current fundraising system and provide use-cases to our investors

MOBI PAD
The Mobile Launchpad

MPB

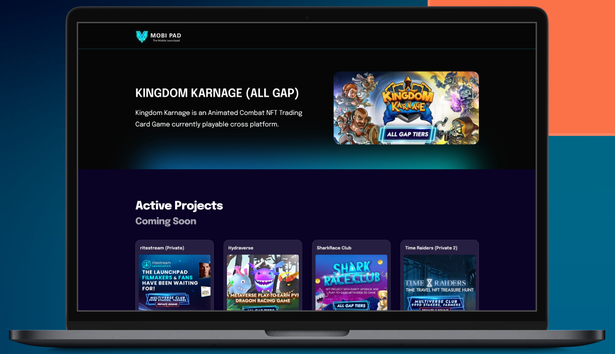

MPT Token

A token that provides investors access to early-stage investments on MobiPad.

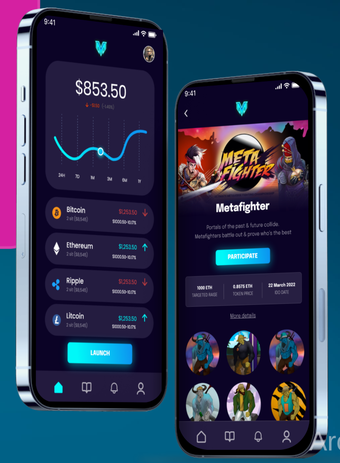

Blockchain LaunchPad:

A fundraising system on Efinity that would allow project creators across multi-chain networks to raise funds.

MobiPad App:

First Mobile Blockchain launchpad with the ability to allow investors to invest in their favorite start-ups, get quicker project updates, vesting announcements, and a dedicated dashboard.

Game Studio:

A blockchain launchpad with a dedicated game studio, projects get needed support from the development/incubation stage to fundraise and launch.

WHAT MAKES US DIFFERENT

First Blockchain Launchpad with a Mobile App

Built by a proven crypto team having over 6 years of experience in Blockchain Technology and

First Mover advantage on Efinity Chain

Powered by Efinity, a parachain built on Polkadot by Enjin

Better concepts such as SAFU POOL, Auto-vesting Portal and Auto-invest structure etc

We provide the best way to fundraise and a smarter way to IDO via MobiPad

TOKEN

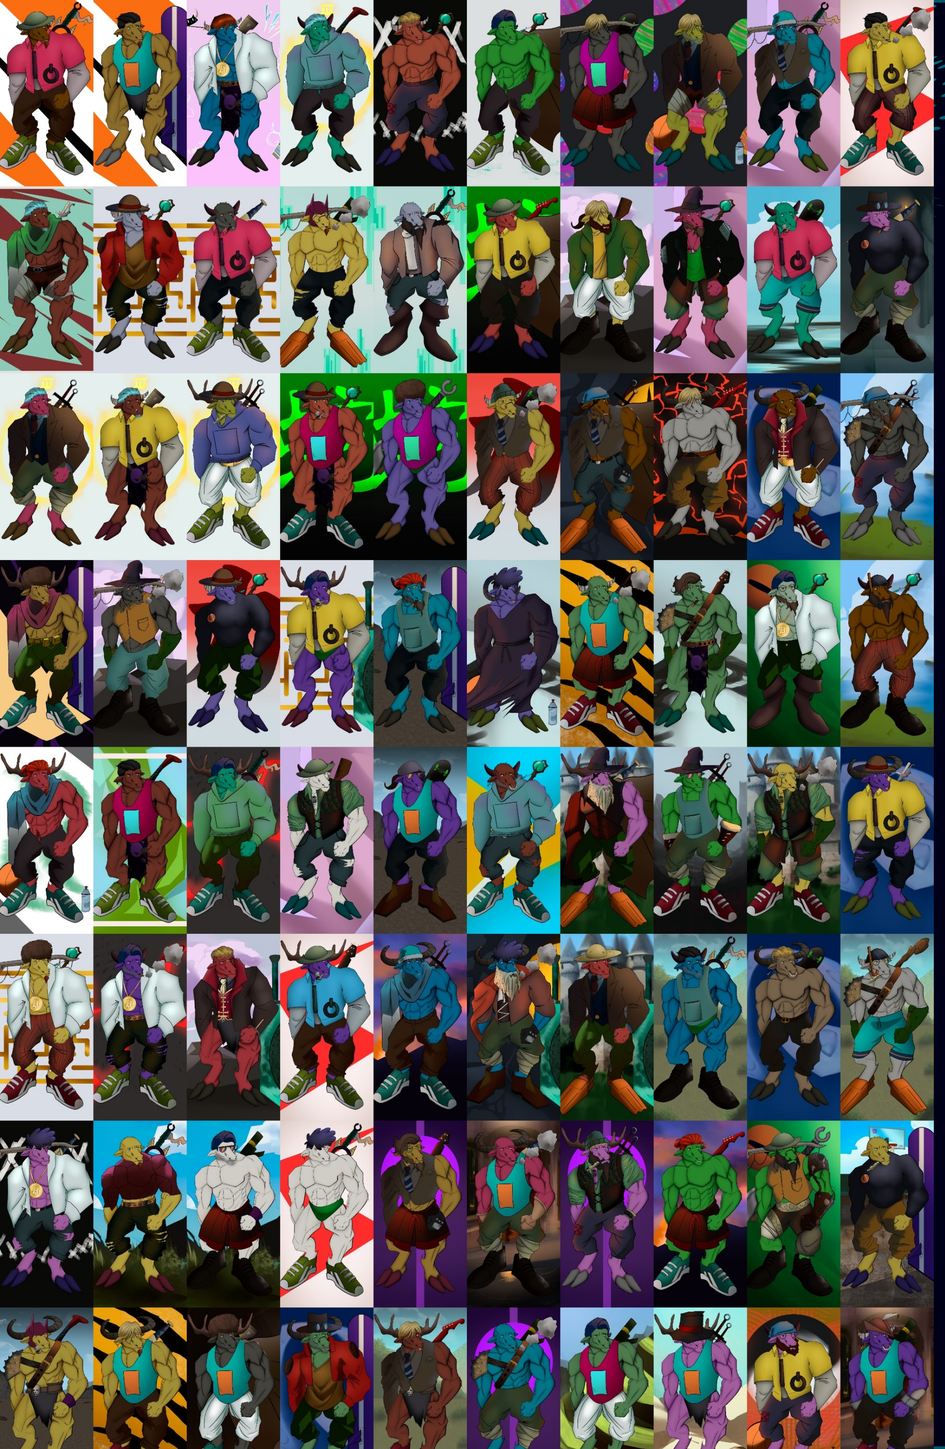

Introducing MobiPad Fuel - MBP Token

MobiPad will be powered by $MBP, a cryptographically secured asset created on the Blockchain.

MBP will function as both utility and Governance token powering our multi-chain Launchpad. A token that does it all.

Archived copy · cryp2nova.com

NFT ECOSYSTEM

MobiPad allows Non-Fungible Tokens (NFT) to function within its ecosystem. Minted on Enjin JumpNet, we have a diverse amount of NFTs with a wide range of use cases.

NFT UTILITY

Early Access: Get Early Access To IDO Investments Before Others

SAFU/Insured: Every Investment Capital Is 100% Insured

NFT Staking: Stake Your Nfts And Earn Rewards.

Lending: Lend And Recieve Commissions.

Loans: Take Out Loans From Protocols When You Stake NFT

ROADMAP

PHASE 1

- MobiPad Conception
- Development plans
- Market Research
- Tokenomics
- Deck

PHASE 2

- Website Launch
- Fundraise and TGE
- Token Listing
- Platform Launch
- Token Tiered System

PHASE 3

- MobiPad Pioneers Onboarding
- Project Onboarding
- Mobile App launch
- NFT Release/INO
- NFTized Allocation system
- Crowd Pool tiered system
- Invite and Earn Program

PHASE 4

- Incubation of Projects
- SAFU Pool Activation
- Auto-Invest and Claim Release
- Tiered System rework
- One-View Dashboard Integration

PHASE 5

- DAO setup
- Features integration
