Welcome to MintStakeShare!

Experience a new approach to token distribution that emphasizes fairness and price stability.

Our staking platform rewards compounding over collecting, backed by a fair yet generous referral system.

This unique reward model fuels growth and offers strong incentives for influencers to share and promote the platform!

MintStakeShare - Mint, Stake & Share your way to financial freedom with MSS!

CRYP2NOVA

Roadmap

Phase 1

- [x] Launch token and staking contracts on BNB Chain
- [x] dApp completed with all core functionality (minting, staking, sharing/referrals)
- [x] Enabled trading on the token, to create the uniswap pair
- [x] Build community by getting influencers to share with referral codes.

Phase 2

Archived copy · cryp2nova.com

- [x] Continous improvements to the UI (work in progress)
- [x] Integrate with Axelar inter-chain token bridge
- [x] Launch on Base Chain
- [x] Token + liquidity details for multiple chains available on dapp.
- [x] Bridging available in dapp

Phase 3

- [x] MoonYield Protocol launch
- [x] Sustainability Updates - Account throttling
- [x] Updated referral system based on NFT subscription with 5 levels
