MOEW Litepaper

MOEW started as a lighthearted memecoin based on a real-life lazy cat and was incubated by Bitget Wallet. Initially a native BASE token, MOEW expanded to Solana and TON, becoming a multi-chain token that connects users across different blockchain networks.

As the project evolved, MOEW transformed into “Professor MOEW,” a friendly cartoon educator sharing Web3 knowledge and representing Bitget Wallet’s educational initiatives on social media. By early 2025, MOEW became an AI agent, delivering token insights, sharing Hot Picks, and helping guide the community with the slogan: “Make the community win!” The community further enhanced MOEW’s utility with an AI meme maker and chatbot, making engagement more fun and interactive.

Now, as Bitget Wallet’s official mascot, MOEW represents the brand’s commitment to #crypto4everyone—merging meme culture, education, and innovation. Staying true to its origins, MOEW’s mission is simple: Make the community win!
