

Welcome to Namimoto

The Fair Launch Agent Platform on BSC network.

1. Introduction

Namimoto is an Agent Launchpad Platform built on the Binance Smart Chain (BSC) that enables anyone to create tokens, audit smart contracts, launch campaigns, and integrate AI-powered agents seamlessly.

Every token created on Namimoto is automatically listed on the Namimoto Board for trading with a bonding curve mechanism to ensure fair launch, price transparency, and liquidity stability.

---

2. Vision & Mission

CRYP2NOVA

Vision
To democratize token creation and bring AI agents to the blockchain world, allowing everyone to launch and grow their projects easily and securely.

Mission

- Provide a user-friendly token launchpad
- Deliver contract audit tools for project security
- Introduce AI-powered Agents for community and ecosystem growth
- Build a decentralized trading and fundraising ecosystem
