# 😸Introduction

NEKO is NEAR Protocol's first meme coin, a crypto content creation hub and ai app developer

## Welcome to Neko

NEKO was born in early 2022 as the first meme coin on NEAR Protocol, aiming to become a key community support node. The Neko community was cultivated during the most challenging market conditions that NEAR has ever seen. When the chips were down, the Neko community grew stronger; showing up and creating educational crypto content every day.

CRYP2NOVA

By the end of 2023, Neko was making waves. Growing into one of the largest NEAR native communities with over 23,500 unique holders!

### Since then, Neko has:

- 📹 Onboarded talented content creators into NEAR
- 📈 Ventured successfully into merchandising
- 💥 Led a meme coin boom in the NEAR ecosystem
- 🤖 ACQUIRED AN AI APP [babyai ↗]

***... and the price of NEKO token increased by 29,000% 🚀***
