🙏 What is Nostra

What is Nostra?

Nostra is the crypto Super App where users can lend, borrow, swap and bridge cryptocurrencies.

CRYP2NOVA

Our vision

Nostra envisions a future where users have the freedom to seamlessly manage their crypto assets and transactions through a single, user-friendly platform, ushering in a new era of simplicity and trust in the crypto experience.

Our mission

Our mission is to onboard the next 1 billion crypto users.

What problem is Nostra solving?

The promise of crypto is undeniable. However, today's crypto user experience needs to be greatly simplified and enhanced for users. The multitude of apps available, each with unique security and features, presents an opportunity for a more streamlined and user-friendly approach.

Rather than focusing on complexity and risk, Nostra aims to empower and onboard the next 1 billion crypto users by providing them with a unified crypto solution.
