Getting Started

The all-in-one prediction market platform

okbet is the all-in-one platform for betting on prediction markets. Trade on Polymarket, Kalshi, Limitless and Opinion from a single account — no juggling wallets or logins.

Archived copy · cryp2nova.com

Two ways to trade

↗

Web Terminal

A full trading terminal with advanced charts, market intel, copy trading, and multi-market views. Trade at okbet.trade.
↗

Telegram Bot

Trade from anywhere with `/bet`, natural language commands, and instant notifications. Start at @okdotbet_bot.
Everything syncs between both platforms. Place a bet on Telegram, sell it on the web terminal. Track a whale on web, get notified on Telegram.

Key features

↗

Agent Mode

Say “hey ok” to trade in natural language. Works on both Telegram and web.
↗

Copy Trading

Track wallets and automatically mirror trades from top traders.
↗

Archived copy · cryp2nova.com

Market Intel

Whale tracking, unusual bet detection, and real-time news feeds.
↗

$OK Token

Hold $OK for reduced fees, earn points, and benefit from the platform buyback.

Supported markets

Platform	Currency	Chain
Polymarket	USDC.e	Polygon
Kalshi	USDC	Solana
Limitless	USDC	Base
Opinion	USDT	BNB Chain

Get started

1. **Web**: Go to okbet.trade and log in with your Telegram account.
2. **Telegram**: Open @okdotbet_bot and run `/start` to create or import a wallet.
3. **Deposit funds** using `/deposit` (Telegram) or the deposit button (web).
4. **Start trading** — browse trending markets, search for a specific event, or just say “hey ok, what should I bet on?”
