Read Whitepaper (PDF)

Full technical documentation, 20 pages.

Contents

1. 1Introduction
2. 2Hybrid AI Compute Architecture (HACA)
3. 3Node Architecture
4. 4Verification Spectrum
5. 5Consensus and Settlement
6. 6x402: Payment-Gated LLM Inference
7. 7PIPE: On-Chain ML Execution

Archived copy · cryp2nova.com

8. 8Model Hub
9. 9MemSync: Persistent AI Memory
10. 10Twin.fun: Digital Twins Marketplace
11. 11Token Economics
