WHITEPAPER

VERSION I.O.I

CRYP2NOVA

OPTIMUS AI COMMUNITY
ELON'S ROBOT

Archived copy · cryp2nova.com

WHAT ELON THINKS ABOUT OPTIMUS

In terms of priority of products, I think the most important product development we're doing this year is actually the 'Optimus' Humanoid Robot.

This, i think has the potential to be more significant than the vehicle business over time.

ELON MUSK,
TECHNOKING OF TESLA

THIS IS ONLY THE BEGINNING

OPTIMUS

THE HEART OF AI

OPTIMUS AI is a decentralized currency created at the day of birth of the official Optimus Twitter. Artificial Intelligence has been a pioneering step for humanity to streamline and guide innovation in the field of robotics and technology.

There will be hundreds to thousands of use cases that will come about utilizing this groundbreaking technology. Optimus aims to be at the forefront of this innovation by bolstering and fortifying developers to harness this technology and bring it to the blockchain.

Optimus has a goal of building and fostering the largest AI community while helping to provide exposure and resources to some of these innovations. Developers will have the ability to apply for grants through the Optimus Venture Fund, and the community will be a primary decision maker in determining which projects to fund and get involved with-whether they're AI-crypto related or a crypto startup.

OPTIMUS

POWER OF MEMES COMBINED WITH A.I.

There’s one thing AI will never replace: The spirit and passion in a like-minded community striving together for a common goal. What better to build this collective, than the energy created by a powerful meme?

Optimus is the solution, providing top-tier meme quality with maximum exposure capacity. Elon feels it’s important to empower humankind with knowledge helping to evolve our species.

Our community feels similar and thus it will focus on the educational aspect of AI both inside and outside the blockhchain.

CRYP2NOVA

Because one thing is clear, AI is here to stay.
Will you utilize its power or will you be left behind?

OPTIMUS

$ $ $ VENTURE FUND $ $ $

Optimus is a true community-run token. The creators of Optimus burnt liquidity, so there is no ownership. Instead, as with other tokens associated with Elon such as Shiba Inu or Floki Inu, Optimus is 100% community-based. All taxes collected will transparently be spent for the growth of the community in the form of Optimus Venture Fund.

A portion of the taxes will go directly into the Optimus Venture Fund, and with the community at the center, developrs can apply for small grants and seed rounds. Once projects have been selected, they'll have access to the pool of our massive community members.

Optimus holders will have access to profit-sharing from these investments and will reward holders for their contribution while simultaneously strengthening the longevity and utility of the Optimus token.

ROADMAP

PHASE I - COMPLETED

- Achieved 1,000 Followers
- Launch on Uniswap, Burn Liquidity
- Lock/Vest supply for development and CEX listings
- Nurture a community of holders to get excited about AI and the impending release of Elon's robot, Optimus
- Deliver three community-driven AI tools/bots to spread awareness of AI and the Optimus token
- Onboard Crypto Twitter and other Crypto Marketing enthusiasts who are passionate about AI and the potential of $Optimus in the crypto space
- Complete KYC and Safe Audit to prepare for hyper-growth

CRYP2NOVA

PHASE 1 — PHASE 2 — PHASE 3

Archived copy · cryp2nova.com

ROADMAP

PHASE 2 - IN PROGRESS

Meet with larger-scale investors for potential partnerships and networking relationships to scale marketing and awareness of the project

Partner with AI experts both inside and outside of the cryptosphere to provide the framework for an educational platform to educate holders and potential investors about AI, their experience and the continuously changing innovations.

Onboard developers and engineers to participate in the creation of educational platform needs, dashboard development, and workflow for the Optimus Venture Fund application process

PHASE 1 — PHASE 2 — PHASE 3

Archived copy · cryp2nova.com

ROADMAP

PHASE 3 - THE FUTURE

List on centralized tier-one (T1) exchanges to allow more users to purchase $Optimus and provide a significantly broader reach

Fund the first AI project from the Optimus Venture Fund

Further insight into profit sharing from Optimus Venture Investments

Future internal utilities

...

Partnerships with VC funds

PHASE 1 — PHASE 2 — VENTURE FUND

CONCLUSION

Unlike other Elon Musk associated tokens (Floki, Dinger, Marvin, Elon etc.) that reached astronomical heights and became the most talked about coins in mainstream media,

Optimus Ai was constructed in a much more difficult market, fostering a stronger community, and giving it's greatest backers the time and opportunity to build in preparation for bettter market conditions.

It is without a doubt the Optimus community believes the ROI to long-term investors at these early stages are significant. After all, we are Elon Musk's robot!
