An online decentralized investment club and community in the Yachting Industry.

What is OSEAN DAO?

OSEAN DAO is a community of like minded members who have formed a decentralized autonomous organization (DAO) for the purpose of participating in the Yacht Market and Yacht Charter industry.

The DAO and its members aim to generate revenue by collectively working together as a community to identify investment opportunities in the Yacht industry including but not limited to tokenizing professional yachts and chartering them for commercial exploitation.
