What is Overtime?

A fully onchain sportsbook ecosystem

Looking for something truly **fun and innovative in DeFi**?
Meet **Overtime.io**, the fully onchain sportsbook ecosystem that's redefining online betting and trading.

Overtime lets you place bets on **popular sporting events** and engage in **digital options trading**, all powered by **smart contracts** and secured with **industry-leading Chainlink and Pyth oracles data feeds**. No central authority. No gatekeepers. Just **pure, decentralized fun onchain**.

Why Overtime?

Overtime isn't just another sportsbook — it's **a fully blockchain based sports betting infrastructure**:

- 🔗 **100% Onchain** – Every bet is executed transparently with immutable smart contracts.
- 🏦 **Self-Custody** – You stay in control of your funds. No centralized custodials, no middlemen.
- 🌍 **Permissionless Access** – No signups, no bans, no limits. Anyone, anywhere, can play.
- 💰 **Instant Liquidity** – Enjoy fast payouts and competitive odds without delays.
- 🎁 **Rewards All Year** – Earn airdrops, free bets, and loyalty rewards.
- 🏛️ **Be the House** – Provide liquidity to Overtime pools and earn a share of the action.

Traders can experience all the fun of sports betting with global permissionless access, no one taking custody of your funds, and no user registration. No one can be excluded or stopped from using Overtime. It is only you versus the smart contracts.

How It Works

1. **Connect** your EVM wallet or social account.
2. **Deposit** supported cryptocurrencies directly into your personal onchain account.
3. **Bet** on sports or trade digital options instantly.
4. **Withdraw** anytime — no restrictions, no delays.

Overtime combines the **thrill of traditional sportsbooks** with the **security and freedom of DeFi**. There are no blacklists, no custodians, and no centralized control. It’s **you versus the smart contracts**.

The First of Its Kind

Overtime is the **first sportsbook to deliver decentralization, instant liquidity, and competitive odds in one platform**. Whether you're betting, trading, or earning as a liquidity provider, you’re part of a **new era of permissionless betting.**

Overtime is here to **bring the game to the blockchain**, and you’re invited to play.
