Product Overview

PancakeSwap helps you make the most out of your crypto in three ways: Trade, Earn, and Win.

Trade

> Instantly swap crypto tokens: no registration or account needed.

The people's choice

PancakeSwap is a leading decentralized exchange. Available across eleven chains: BNB Chain, Ethereum, Solana, Base, Arbitrum, Aptos, ZKsync, Linea, Monad, Robinhood, and opBNB, with the highest trading volumes in the market (sources: 1↗ 2↗).

Low fees

Why pay more?
Trading fees are lower than other top decentralized exchanges too, so that's a win for you!

Decentralized

Trade directly from your wallet app.
Unlike centralized exchanges like Binance or Coinbase, PancakeSwap doesn’t hold your funds when you trade: **you have 100% ownership of your own crypto**.

Earn

> Earn CAKE and other tokens for free with super high interest rates.

Earn tokens with Syrup Pools

Stake CAKE, earn free tokens. It’s really that easy.
CAKE holders right now are earning tens of millions of USD worth of free tokens each week from major projects. New projects join the party frequently, so you can earn more, for even longer.

Earn CAKE with Yield Farms

Stake LP tokens, earn CAKE. You take on a little more exposure to market fluctuations than with the Syrup Pools, but can earn higher APR to offset the risk.

Earn Trading Fees

No farm? No problem. Even if your trading pair isn't supported on the Farms page, you can still earn trading fees when you stake your tokens in Liquidity Pools (LPs).

Win

> PancakeSwap makes making money fun.

Lottery

Millions of dollars regularly go up for grabs on the PancakeSwap Lottery. Join as many as **11,000 daily players** for your chance to win big!

Prediction

Predict whether BNB, BTC, or ETH price will rise or fall. New rounds every 5 minutes!

CRYP2NOVA

Is PancakeSwap safe?

See for yourself:

Check out these PancakeSwap security audits here.

Transparent:

- We're built on open-source software: our site and all our Smart Contracts are publicly visible for maximum transparency.

Archived copy · cryp2nova.com

- Our contracts are verified on BscScan so you know that what you see is what you get: 1 ↗ 2 ↗ 3 ↗ 4 ↗ 5 ↗

Security best practices:

- The chefs use multisig for all contracts.
- Our contracts' time-locks give you peace of mind.

Sounds like fun?
Then get flipping! 🐰 🥞
