Your Docusaurus site did not load properly.

A very common reason is a wrong site **baseUrl configuration**.

Current configured baseUrl = / (default value)

We suggest trying baseUrl = /D:/Desktop/whitepapers/whitepapers_html/whitepapers/12571_PUFETH_pufETH.html/

Puffer Finance Docs

Documentation for the Puffer products

Building the Future of Ethereum Infrastructure

Liquid Restaking Protocol

Puffer introduces a native Liquid Restaking Protocol (nLRP) integrated with EigenLayer, empowering users to maximize capital efficiency without compromising security. Our yield product enables users to participate in Ethereum's decentralized economy while maintaining optimal capital efficiency.

Learn More

UniFi Based Rollup

UniFi, our based rollup, connects natively with built-in yield and supports instant asset withdrawals, offering a seamless and more aligned alternative to traditional zk and optimistic rollups. Experience the future of rollup technology with native yield integration.

Puffer Preconf

Archived copy · cryp2nova.com

Puffer Preconf provides fast, secure, and neutral preconfirmation services for Layer 2 rollups. Backed by 3M ETH of restaked security, it brings ~100ms transaction confirmations to any L2 while maintaining decentralization and economic sustainability.

Learn More

Institutional Solutions

Our Institutional Staking Solutions deliver enterprise-grade, scalable infrastructure for large-scale participation in Ethereum's decentralized economy. Designed for institutions seeking reliable and secure staking services.
