$RCON (RECON RACCOON) Whitepaper

Version: 1.1
Date: December, 2025

---

1. Introduction

- **Brief overview of the token's purpose:**
    - $RCON is a memecoin honoring those who have been rugged or scammed in crypto. Our goal is to foster growth, collaboration, and security within the cryptocurrency space.
- **Inspiration behind project development:**
    - $RCON was created after our CTO team experienced a project failure caused by a key influencer. We came together to build something transparent, long-lasting, and safe for the community.
- **Community focus and reasons to join:**
    - We aim to provide a sanctuary within crypto and offer a long-term solution to quick meme culture, supporting growth with a platform built for success.

---

2. Vision & Mission

- **Vision:** Create a resilient, community-driven ecosystem and a widely recognized memecoin on Solana.
- **Mission:** Provide a safe haven for those who have been rugged or scammed, while supporting long-term community-driven developments. Through tokenomics and a team-oriented platform, we aim to maximize exposure, engagement, and sustainable growth.

4. Functions

- **Weekly Hosting:** recurring weekly spaces on X where the team and community discuss crypto, market trends, and project updates. Sessions may include guests from rugged projects, CTOs and low-market-cap teams presenting their work, and updates from partnered projects

- **Portfolio:** webpage highlighting CTOs, low market cap gems, and strong founding teams. Projects must meet internal standards: long-term vision, accountable/transparent leadership, real utility or original design, fair incentives, and consistent execution.

    - Commitment Mechanism: Projects signal alignment with $RCON's values by voluntarily burning $RCON, demonstrating long-term conviction and shared responsibility. The Marketcap of $RCON dictates burn tiers for each new project.

        - < 250k Marketcap - variable at team discretion
        - 250k - 500k Marketcap - $1,000 USD
        - 500k - 1M Marketcap - $1,500 USD
        - 1M - 2.5M Marketcap - $2,000 USD
        - 2.5M - 5M Marketcap - $3,000 USD
        - 5M - 10M Marketcap - $4,000 USD
        - 10M+ Marketcap - $5,000 USD

6. Community & Governance

- The long-term success of $RCON depends on the active participation and shared ownership of its community. Our governance model is designed to empower holders, promote transparency, and ensure the protocol evolves in alignment with the interests of all holders.
- The only community donation/marketing wallet is doxxed and the following: 45if9iKWVCigc8fR94B6MfTHfXmRxD9dUqWxpBt8qVdj
- We believe in a decentralized future where the community plays a central role in decision-making. Holders of $RCON will have the ability to propose, discuss, and vote on initiatives that shape the project's direction, ensuring that the ecosystem is built by the community, for the community.
- To maintain trust, governance decisions, treasury expenditures, and project updates will be documented publicly and available for review by all holders. Solscan confirmation will be provided for any and all expenditures from the community.

---

7. Security

- The only contract address for the $RCON is: 7nZuYZYZnof9gF3zr9QhdnxpQ1mTM8LN3VaJuhrGbonk
- The liquidity pool is via Raydium and on the Solana blockchain. The liquidity is locked with the contract being immutable.
  Pool id: GcxNEzvGsn3sJ753Ak6mcca43GsjLmNvFHYQva2bsf4k
- The total supply is permanent without the ability to ever add supply. The only possible way to decrease supply is through burning tokens.
