Our story so far

The earliest investors in $ROCKY came from the MetaWin community. Rocky is the founder of MetaWin's Pomeranian and the team at MetaWin turned him into a Meme Coin!

After dropping a stealthy link in the Discord at $33k, $Rocky mooned to $72M market cap in three days. Following this explosion, which minted many holders with life changing wealth the amazing Rocky community have taken the reigns and have grown $Rocky to a steady 8500+ holders.

The MetaWin team have been supporting the community every step of the way, organizing exchange listings, KOL initiatives and even Premier League advertising globally to raise awareness.
