🚀 Introduction

Welcome to the Rollhub Token (RHUB Token) whitepaper!

What is the RHUB Token?

The main concept is simple: **Wager to Mine, lost bets burned!**
You earn tokens just by playing with, and when bets in RHUB are lost, we burn up to 50% tokens, which make the ones you hold more valuable over time.
The RHUB Token is all about bringing fun and rewards together. Instead of just buying tokens, you earn them by enjoying your favorite casino games. And since lost bets are burned you can think of the token as a representation of luck and gaming excitement.

Purpose: To reduce the total supply of RHUB Tokens, thereby increasing scarcity.

Mechanism: Up to 50% of the tokens from lost bets are burned monthly.

Process: Every month, the total amount of lost bets in RHUB is calculated, and tokens are burned according to the active burn percentage.

Impact: As the circulating supply decreases, each token may become more valuable.

💎 Staking Rewards

Purpose: To reward token holders and encourage long-term investment.

Mechanism: Up to 20% of the tokens from lost bets are allocated to a staking pool.

Rewards: Stakers earn a share of the staking pool proportional to their stake.

Operational Expenses

Purpose: To maintain and develop the platform.

Allocation: Up to 30% of tokens from lost bets are used to cover operational costs.

Transparency: Regular reports on expenditures ensure community trust.

⛏️ Wager to Mine

Turn your gameplay into RHUB rewards

The Rollhub platform empowers users to utilize RHUB Tokens earned through gameplay to enhance their gaming experience. This mechanism turns wagering into a rewarding opportunity through our "Wager to Mine" system.

Starting Rate: Mining difficulty isn't static—it adjusts over time based on how many people are playing and mining.

Rewards decrease over time based on our Burn Roadmap

Key Benefits:

✅ **Token Redistribution:** Increased play leads to more token earnings
