Introduction to Scamfari

Copy

Uncover Fraud and Get Rewarded!

Fraud affects the reputation of the crypto market. Illegal transactions on the cryptocurrency network are steadily increasing.

Fraudsters are attracted to the anonymity and non-traceability of the cryptocurrency transactions making it the breeding ground for scams, exploits, and phishing traps.

What is Scamfari?

Scamfari is a crowd-sourcing platform, part of HAPI Foundation, a leading cybersecurity and cryptocurrency security company. Our mission with Scamfari is to make the blockchain safer and more secure by increasing user safety, awareness, and literacy in the face of potential fraud within the cryptocurrency world.

We believe that by working together we can combat the growing threat of fraud and create a more reliable and trustworthy blockchain ecosystem. Our platform is designed to collect addresses of scammers, phishing sites and fraudulent blockchain projects whilst rewarding community members for their efforts.

Using authoritative data sources and advanced tools with real-time access, we ensure the accuracy of the submitted data.

Scamfari is designed with the Blockchain in mind. Offering transparency of submissions and rewards by bringing the whole operation on-chain! We are strong proponents of Web3 technology and actively support its principles.
