Seasons

👋Welcome

Official documentation of the SEASON's project.

Here you will find all of the most accurate and up-to-date information about Seasons. From the $SEAS token's distribution to the Yield 3.0 mechanism, any & all relevant resources, roadmaps, and timelines, frequently asked questions, and everything in between.

> This is a *working document* that is being updated in-real time alongside the maturation of the project and evolution of our thesis.
>
> We kindly ask the reader to understand that the content, as well as the document's structure, will be subject to change. While the core concepts presented herein will remain constant, certain terminology and architectural features will be adapted to better communicate the subject matter
