$SHIBUSSY

Welcome to the world of SHIBUSSY, a project born from exhaustion.Built on Base, powered by a tired community of sleepyheads and degenerates.We're not here to make promises or hype empty

Archived copy · cryp2nova.com

plans.SHIBUSSY is a comunity-driven, decentralized project where tired hands and tired minds decide what comes next.No nonsense. No fluff. Just $SHIBUSSY and a movement for those who are tired of everything.

Why $SHIBUSSY?

🔥 **Base Chain:**
Fast, secure, and built for next wave of new tokens. 🔒 **LP Locked:**
Liquidity tokens burned for trust. 🤝 **Community First:**
Driven by tired hands and minds.** 💀 **Deflationary Supply:**
16.7B Tokens burned to date - over 24% of supply. 🛡️ **Renounced Contract:**
No single entity controls the contract.

Liquidity Pool Details

🔒 **Liquidity Locked**
The original liquidity pool created by the team is fully locked, with liquidity tokens burned forever. This ensures trust and stability for the project. 🤝 **Community-Funded Liquidity Pools**
Some community members have created additional liquidity pools to support trading. These pools are

Archived copy · cryp2nova.com

entirely optional, decentralized, and outside of team control. Because of this, the percentage of "locked liquidity" can fluctuate based on the total combined liquidity in all pools. 🌱 **Team Commitment to Locked Liquidity**

The team is dedicated to growing the locked liquidity pool as the community grows. We will continue to find ways to strengthen the liquidity base, ensuring long-term stability and trust. ⚠️ **What this means:**The team's original pool remains locked and untouchable.

Community pools can grow or shrink based on individual contributors, and this impacts the overall percentage shown for "locked liquidity" on platforms like Token Sniffer or DEX scanners. 😴 **Why this matters:**

This is a sign of growth and decentralization. More liquidity pools = healthier trading and a stronger project. 🌙 **Key Takeaway:**

The team's liquidity is locked forever. Community contributions and the team's commitment to growth are part of the open and decentralized nature of $SHIBUSSY.

The Team

The team operates under pseudonyms for a simple but important reason: to protect our families and loved ones from the chaos that often comes with this space.Memecoins can be unpredictable, and the world of crypto isn't always kind. We're here to build something fun, sustainable, and real without exposing ourselves or those we care about to unnecessary risks.That said, transparency and legitimacy have always been our priority. Every wallet associated with the team is public, and our actions are fully visible on the blockchain. We've proven our dedication to SHIBUSSY through ongoing burns, strategic moves, and a consistent focus on long-term health, not quick profits. If we were here for a cash grab, we would have done it by now. Instead, we're here for The Tired, standing on tired ground alongside this community.Names and faces don't make a project... actions do.We'll let ours speak for themselves

"Your Mom"

***Creator. Architect of the Tired Revolution*0x8bEC3529F62398464cdD6fc46cF885D9D57A5c0c**

Your Mom is the mind behind $SHIBUSSY.A self-proclaimed, chronically tired human being. He launched the project as a rallying cry for everyone fed up with the noise of the crypto space, and the world at large.Your Mom is an multi-disciplinary artist with an interest in exploring how art can transcend an individual and take on a life of its own through community engagement and memes."I’m not here to sell you a dream. I’m here to scream into the abyss and see how many echos return my tired cries."

"Brother"

The First Sleepyhead, SHIBUSSY's Day-One Carol0x65BD31CdE0e9b219a045aDb58697Ee5C2dC21437

Brother is the first supporter and the only person that Your Mom told about the project. Brother has always supported Your Mom's creative endeavors and this was not going to be an exception.A small buy on day one, and no fear of burning supply to help the project, Brother is the ultimate Carol and emotional support animal for Your Mom.Brother is the second half of the tired equation, always down to push the boundaries of chaos and conviction."I didn't need a reason beyond my own exhaustion for everything I've experienced in the crypto space."

THE ANTI-ROADMAP ROADMAP

“Life doesn’t follow a straight line, so why should we? This is a loose plan, subject to naps.”---**Phase 1:**
The Awakening (Completed ✅)
- **Launch on Base**: $SHIBUSSY emerges as a rallying cry for the terminally tired.
- **Liquidity Burned**: LP tokens sent to the dead address, ensuring trust from day one.
- **The Community Rises**: Sleepyheads gather, memes are made, tired ground is claimed.
- **Merch Store Opened**: Real-life SHIBUSSY gear to wear your tiredness loud and proud.---**Phase 2: Expanding the Universe (Ongoing 💤)**
- **CMC & CoinGecko Listings**: Making our tired message loud enough to be heard everywhere.
- **The Dictionary Grows**: The language of the tired evolves with new terms, phrases, and memes.
- **Community Leadership**: New sleepyheads step up, spreading the gospel of tired hands.
- **Token Burns Continue**: Regular supply reductions as a gesture of faith to the Tired.---**Phase 3: The Great Decentralization (Future 🛌)**
- **Community Ownership**: As the project wallets increase, SHIBUSSY will officially be controlled by the hands of the tired. No singular leaders, just a community that works together to create and decide where the project can go next.
- **Tired Fund**: Using the deploy wallet to make strategic plays that will support marketing and growth.- **Advancing Tokenomics:** Exploring future use cases for SHIBUSSY through community-driven discussions around staking opportunities, governance features, and innovative integrations to keep SHIBUSSY engaging and relevant.---**Phase 4:**
The Final Treasure (Endgame ✨)
- **The SHIBUSSY Hardware Wallet**: A limited-run hardware wallet embedded with 1% of the total supply.
- **The Ultimate Tired Treasure Hunt**: Inspired by Fenn’s Treasure, the hardware wallet will be hidden in the real world.
- **A Global Quest for the Sleepyheads**: A cryptic series of clues will be shared across the community and spread to the world. There's a new IRL global treasure hunt.
- **Legacy of the Tired**: Full decentralization achieved. We came, we saw, we napped.
---**Our Promise:**
- No fake hype.
- No vibes or utility for the sake of utility.

Archived copy · cryp2nova.com

- Just tired humans building and exploring something chaotic and real.---**Stay Tired.**
The only guarantee is that we will get there, one nap at a time. 💤

UPDATES

We are consistently updating our community with every aspect of the project. All of our updates are kept on the discord in the #announcements channel.

- MEET THE COMMUNITY

MERCH STORE

The SHIBUSSY merch store is a community-powered effort, built by The Tired for The Tired. 💤 Every item here exists because someone in the SHIBUSSY community wanted it. As requests come in, new products will be added.Profit from merch store sales will be put back into the project.*Got an idea for merch? Tell us, and we'll make it happen.*

$SHIBUSSY WhitepaperWhat is $SHIBUSSY?

$SHIBUSSY is a crypto token for the **terminally tired**. It's built on Base and driven by a community of individuals exhausted by the noise of crypto, life, and everything in between. $SHIBUSSY rejects false promises, undeliverable roadmaps, and corporate nonsense.This is a project for those who are completely tired of everything they've seen to date.---**The Vision**

At its heart, $SHIBUSSY is about creating something real in a world filled with noise and overhype. What started as a meme has evolved into a community-powered project with tangible momentum.We believe in:

- Transparency: Everything about $SHIBUSSY is on-chain and we maintain open dialogues with the community about what we're doing. We are fully dedicated to maintaining this fully transparent ethos.

- Decentralization: The contract is immutable. The community drives the future.

- Trust: Liquidity pool (LP) tokens are burned, locking liquidity forever.

- The Tired: A community of people who are just... tired.---**The Roadmap (or the "anti-roadmap-roadmap" as we call it.Phase 1:**

- Token launch on Base.
- Initial LP funded with 0.5 ETH and liquidity tokens burned.
- Community formation begins.
- The first burn: Over **16.7 billion tokens** removed from supply.**Phase 2:**
- Merch store launch, built by the community for the community.
- Community-funded growth initiatives.
- Outreach to expand the Tired universe and welcome new Sleepyheads.**Phase 3:**
- Continued token burns to manage supply and reward community growth.
- The **Real Life Treasure Hunt:** We have created a wallet that contains **1% of total supply.** This wallet will be hidden in a very hard to find location somewhere in the real world. A series of cryptic and poetic clues will need to be decoded and pursued in order to try to find the hidden treasure. This is our dream to create a new viral treasure similar to the famous "Fenn's Treasure."We want to do this because we believe we are building a community of people who are tired of the old ways and literally sick and tired of their computer screens and the damage that can be caused to ourselves by spending every hour in front of a screen or staring at a dex. We want to encourage the tired humans of this world to get outside and breathe fresh air, and explore, and realize that the real valuable stuff is out in the real world.**Phase 4:**
- Full decentralization: The community takes ownership of $SHIBUSSY.
- Growth of the **Tired Universe** through collective ideas, memes, and initiatives.---**Tokenomics**- **Total Supply: 69,531,800,869 tokens**- **Burned Supply:** To date, 31.58% of the supply has been burned .- **Total Circulating Supply: 47,571,003,670 billion tokens**- **Locked Liquidity:** LP tokens have been sent to a dead address, ensuring trust and security.**Current Distribution:**

-**2.5% Team member wallet**

- **Less than 5% Deploy Wallet:** Reserved for project initiatives and community growth.-**Evolving Tokenomics:** The SHIBUSSY community plays an active role in shaping the token's future. Ongoing discussions include implementing staking opportunities, governance mechanisms, and creative integrations to ensure SHIBUSSY remains engaging, adaptable, and aligned with the values of the community. These evolving use cases exemplify our commitment to transparency and

decentralization, empowering token holders to directly influence the project's trajectory

---**The TeamYour Mom**

Creator. Architect of the Tired Revolution.

Wallet: `0x8bEC3529F62398464cdD6fc46cF885D9D57A5c0c`Your Mom is the creator of $SHIBUSSY. A self-proclaimed, **chronically tired** individual and multi-disciplinary artist, he launched the project as a creative experiment in community building and memes.Your Mom has officially burned 100% of their supply in support of decentralization.**Brother**

The First Sleepyhead. SHIBUSSY's Day-One Supporter and brother of Your Mom

Wallet: `0x65BD31CdE0e9b219a045aDb58697Ee5C2dC21437`Brother is the ultimate supporter and the **first community member**. His belief in the project on day one helped lay the foundation for everything that followed.Brother has a significant portion of his original supply in order to foster decentralization, remove any team members from top 10 holders list, and show support to the community.---**Why $SHIBUSSY?** 🔥 **Base Chain:** Fast, secure, and built the next way of new tokens.

🔒 **LP Locked:** Liquidity tokens burned for trust.

🤝 **Community First:** Driven by tired hands and minds.

💀 **Deflationary Supply:** Over **16.7 billion tokens burned**.

🛡️ **Immutable Contract:** No control over the contract.

💤 **The Tired Universe:** A growing community building something real.---**Transparency & Trust**

We understand that trust is earned, not given. From day one, we've been transparent about wallet holdings, burns, and project intentions:- **Deploy Wallet:** <5% of supply reserved for growth initiatives, with burns scheduled to maintain fairness.

- **Insider Wallets:** Day-one wallets created through organic buys are actively burning tokens to reduce their impact.We are committed to a **fair and equitable distribution** of tokens to ensure the long-term success of $SHIBUSSY.---**Final Thoughts**

$SHIBUSSY isn't just a token, it's a growing movement for the tired, the exhausted, and the relentlessly human.No false promises. No tired antics. Just a community of real human beings who are tired of everything and ready for something real.**Stay Tired.**
