CRYP2NOVA

Shockwaves is a groundbreaking online blockchain game designed to deliver an unparalleled gaming experience through its innovative blend of AI-driven NFTs, algorithmically generated cities, and music-infused gameplay. As a first-person shooter powered by the Binance Smart Chain, Shockwaves appeals to a wide range of audiences, bridging the gap between Web3 and Web2 users. This whitepaper provides an overview of Shockwaves' unique gameplay, AI capabilities, land ownership, and token utility, all of which contribute to the game's potential for mass adoption and long-term success.
