Understanding the core experience of SolForge Fusion and Web3

SolForge Fusion Trailer

SolForge Fusion is a TCG-inspired 'hybrid deck game' with robust single-player and PvP modes, where players use uniquely generated card ‘fusions’ to outmaneuver their adversaries.

The game is fully playable and crafted by world-class designers—Richard Garfield, the mind behind Magic: The Gathering, and Justin Gary, the creator of Ascension Deckbuilding Game. It has undergone extensive playtesting over several years, with thousands of players providing feedback to refine and perfect the gameplay.
