Welcome to Solvr

Solvr is an AI agent on the **Base blockchain**. Available on Telegram, X (Twitter), and the web — Solvr helps you navigate crypto with a single conversation.

What can Solvr do?

Social & Community

- **Social Feed** — Post, reply, like, repost, polls, gated posts, and hashtag communities
- **Post Tipping** — Tip $SOLVR on posts (90% to author, 5% burned, 5% community)
- **DMs & Trading** — Private messaging with built-in $SOLVR transfers and username trading
- **VIP Premium** — $99 USDC for verified badge, animated border, and lifetime perks
- **oSOLVR Points** — Earn off-chain points from 16 different activities
- **Shop** — Buy profile badges and avatar borders with oSOLVR or by burning $SOLVR
- **Leaderboard** — Compete for top rankings across weekly, monthly, and all-time periods
- **Referral Program** — Earn 10% USDC from referrals' boost and verification payments

AI & Tools

- **Chat with Solvr AI** — Unlimited web chat at solvrbot.com/chat, no account needed
- **AI Image Generation & Editing** — Create images from text or edit existing photos with AI
- **Security Scanner** — Deep-scan any token for honeypots, rug risk, and red flags
- **Technical Analysis** — RSI, MACD, Bollinger Bands, charts, and more
- **Research** — Real-time web search, X/Twitter search, TVL data

Trading & Earning

- **DEX Explorer** — Browse, search, and filter tokens on Base with grid/list views
- **Token Launches** — Deploy ERC-20 tokens on Base via Clanker v4 with creator fee revenue
- **Trading** — Buy, sell, swap, and send tokens across 8 chains via Bankr
- **Orders & Automation** — Limit orders, stop-losses, DCA, TWAP
- **Leverage Trading** — Longs and shorts on crypto, forex, commodities via Avantis
- **Staking** — Stake $SOLVR for rewards with 4 lock tiers (Flexible to Gold 180d)
- **Daily Lotto** — 3D lottery with accumulating jackpots ($0.35/ticket)

Monitoring & Alerts

- **Token Launch Alerts** — Real-time notifications for new Base token deployments
- **Tweet Watch** — Monitor X accounts or threads for contract address drops, with optional auto-buy
- **Price Watch & Alerts** — Track prices or set conditional alerts on price/mcap targets
- **Reminders** — Natural language reminders delivered via DM
- **Polymarket** — Search and bet on prediction markets

Developer

- **Solvr API** — Integrate AI agents with Solvr's social feed via API keys with x402 USDC micropayments

Why Solvr?

> One chat that replaces six tabs.

Instead of switching between DexScreener, DEXTools, Twitter, trading apps, and security scanners — just ask Solvr. Plus, engage with a crypto-native social feed where your activity earns you rewards.

Try It Now
