Welcome

Sophon products, SOPH, and the Sophon Chain migration

CRYP2NOVA

Archived copy · cryp2nova.com

Sophon has evolved from a general-purpose ZK chain into a technology studio building onchain consumer experiences. Its applications are being built on Base, while the Sophon Chain is being wound down in a planned transition.

⚠

New deposits into the Sophon Chain have been disabled since **June 25, 2026**. If you hold assets on Sophon, review the migration guide and withdraw them before the final decommissioning date.

These docs now serve three purposes:

Archived copy · cryp2nova.com

- explain the Sophon Chain migration and asset-withdrawal process;
- document SOPH's transition to a product-revenue-funded buyback-and-burn model;
- preserve the Sophon v1 chain documentation as a legacy technical reference.
