About SpineDAO

Revolutionizing Spine Care through Decentralization, Collaboration, Expertise and AI

SpineDAO is the first surgical Decentralized Autonomous Organization (DAO) focused on making advanced spine treatments accessible to everyone. Led by a team of experienced spine surgeons and a biomechanical engineer, SpineDAO leverages blockchain, artificial intelligence, and community-based decision-making to tackle major challenges in spine care.

This whitepaper outlines SpineDAO's vision, mission, ecosystem, governance structure, tokenomics, core products, and future plans. Specifically, it demonstrates how SpineDAO's unique multi-labeled data-sharing system, built on blockchain technology, fosters transparency, immutability, and incentivized participation.
