STRATO Technical Documentation¶

Welcome to STRATO - a blockchain platform optimized for decentralized finance (DeFi). Borrow against your assets, swap tokens, provide liquidity, and earn rewards.

🚀 Quick Start¶

New to STRATO?

Get up and running in 10 minutes

→ Quick Start Guide

Building on STRATO?

Integrate with our APIs and smart contracts

→ Developer Quick Start

📚 For End Users¶

Complete Workflows¶

End-to-end scenarios combining multiple features:

- **First-Time User** - Complete onboarding from bridge to first borrow
- **Maximize Yield** - Earn 10-15% APR through lending + liquidity
- **DCA Strategy** - Dollar-cost average into DeFi positions
- **Platform Migration** - Move from Aave/Compound/MakerDAO
- **Portfolio Rebalancing** - Diversify without closing positions
- **Risk Management** - Hedge against volatility
- **Leverage Long** - 2-3x exposure (advanced, high risk)
- **Multi-Asset Strategy** - Complex multi-collateral positions
- **Collateral Optimization** - Dynamic rebalancing
- **Arbitrage & Market Making** - Active trading
- **Withdrawals** - Withdraw assets from STRATO

Feature Guides¶

Step-by-step guides for individual features:

- **Borrow USDST** - Get liquidity against collateral
- **Mint USDST (CDP)** - Create stablecoins via CDP

Archived copy · cryp2nova.com

- **Swap Tokens** - Trade on the DEX
- **Provide Liquidity** - Earn trading fees
- **Bridge Assets** - Cross-chain transfers
- **Manage Rewards** - Claim Reward Points

Essential Knowledge¶

- **Core Concepts** - Health Factor, CR, LTV, and more
- **Safety & Risk** - Protect your assets
- **FAQ** - Common questions answered

👷 For Developers¶

Getting Started¶

- **Developer Quick Start** - First transaction in 5 minutes
- **Platform Overview** - Platform overview & setup
- **Quick Reference** ⭐ - All operations (ABIs, code examples)
- **Contract Addresses** - Deployed contracts

Integration Guides¶

- **API Integration** - Complete tutorial with authentication
- **E2E Examples** - Yield farming, dashboards, bots

What You Can Build¶

With STRATO, build:

- **DeFi Aggregators** - Combine lending + swaps + liquidity
- **Yield Optimizers** - Auto-compound strategies
- **Portfolio Trackers** - Real-time position monitoring
- **Trading Bots** - Arbitrage and market making
- **Risk Managers** - Automated health monitoring
- **Mobile/Web Apps** - Full-featured DeFi applications

📖 API Reference¶

For developers and integrators:

- **Interactive API (Swagger)** - Explore and test all endpoints
- **API Overview** - Authentication and common patterns

CRYP2NOVA

Archived copy · cryp2nova.com

- **Core Platform API** - Low-level blockchain access
- **System Architecture** - Platform design and components

🎯 Popular Paths¶

I want to...

Earn yield on my crypto
→ Maximize Yield Scenario

Get started from scratch
→ First-Time User Guide

Move from another platform
→ Platform Migration

Build an application
→ Developer Quick Start

Understand the basics
→ Core Concepts

See all features
→ Feature Guides

📊 Documentation Stats¶

- **12 Scenario Guides** - Complete workflows
- **6 Feature Guides** - Individual operations
- **6 Developer Guides** - Integration & APIs
- **11,000+ lines** - Comprehensive coverage

All with worked examples, real numbers, and best practices.

💡 Key Features¶

✅ For Users¶

- **Complete Examples** - Every guide starts with a full worked example
- **Real Numbers** - Actual costs, amounts, and outcomes
- **Step-by-Step** - Exact buttons to click, fields to fill
- **Troubleshooting** - Common issues and fixes inline

Archived copy · cryp2nova.com

✅ For Developers¶

- **Copy-Paste Code** - Ready-to-use functions
- **All ABIs** - Every contract interface
- **Production Ready** - Error handling, best practices
- **Multiple Languages** - JavaScript, TypeScript examples

🔗 Quick Links¶

Essential Pages:

- Quick Start - Get started in 10 minutes
- FAQ - Common questions
- Safety Guide - Risk management

Most Popular:

- Maximize Yield - Earn returns
- Interactive API Reference - Swagger UI for developers
- Developer Quick Reference - All operations
- First-Time User - Complete onboarding
