Introduction

Welcome to Surge. We'll build out this docs over time but for now we are just using this to provide resources and tutorials on using our public testnet. Here's a quick 10 second introduction.

- Surge is the first non-custodial, permissionless market making platform on Cardano
- Built to bring professional grade automated trading to anyone, regardless of skill level
- Capable of Billions of dollars in monthly Cardano on-chain activity
- Lead developer contributed to core Cardano infrastructure
- Audit by leading Cardano firm in progress

For more links and resources, see here↗. Thank you for the support and we hope you enjoy using the platform.
