👋The DUB Token

Copy

The First Project in DeFi dedicated solely to building Protocol-Own Liquidity in order to benefit holders and born on Base chain. When crypto hands you loss after loss, we all could use a DUB!

The Dub Token was inspired by crypto personalities in the space who are looking for the next big win but seemed to rack up loss after loss. Our project aims to be your turn-around moment, to get that W, or "DUB", after experiencing all of those heartbreaks, failures, miscues, hacks, dumps, projects folding or rug-pulling.

It's time to get excited about a project that is dedicated to being that Win that seems to have eluded all of us.

It's time to get that DUB! Let's win TOGETHER!
