Who We Are

Todin is a next-generation shopping ecosystem where users don't just compare products & prices, they *earn* while doing it.

Built on the Cronos blockchain, Todin transforms traditional shopping into a powerful Web3 experience by introducing the **Todin Token**: a utility token that rewards smart shoppers, fuels platform growth, and connects thousands of products across e-commerce sites into one seamless, rewarding experience.

Whether you're browsing for the best price or product, referring others, or holding tokens, you're part of a smarter shopping revolution.

The Mission

To make online shopping smarter, fairer, and more rewarding by giving **users a share of the value they create** not just platforms or corporations.

We believe in a world where:

- 🛒 Shoppers get cashback and perks for making smarter decisions.
- 🤝 Communities earn from referrals and platform activity.
