Learn more about Utopia

Explore the documentation for Utopia, the foundational layer designed to unify your on-chain experience. We're eliminating the fragmentation of Web3 by bringing Social interactions and DeFi utilities into one cohesive platform.

Here, you'll find everything you need to understand, navigate, and thrive in the universe we're creating.

index.js

```
// Import the Utopia SDK
import Utopia from "utopia-sdk";

// Initialize the Utopia client with your identity
const utopia = new Utopia({ apiKey: "YOUR_UTOPIA_ACCESS_KEY"
});

// Send your first message across the universe
const transmission = await utopia.communication.broadcast({
  message: "Hello, Utopia!",
  channel: "genesis"
});

console.log("Message propagated through the network:",
transmission.id);
```
