## Overview

**XFEE** is the ecosystem utility token connected to **Xtrends**.

Its purpose is simple:

**Every major activity on Xtrends — launches and trading — creates demand for XFEE through buybacks and burns.**

XFEE is built around four core value loops:

1. **Launch Fee Buy & Burn**
2. **Trading Fee Buy & Burn (NEW)**
3. **XFEE Staking**
4. **XFEE Mining Power Packs**

---

## What XFEE Does

XFEE captures value from **both creation and trading activity** on Xtrends.

- When a token is **launched** → XFEE is bought & burned
- When tokens are **traded** → XFEE is bought & burned

This creates a **continuous demand engine** tied to platform usage.

# Core Utility

## 1. Buy & Burn From Launch Fees

Every token launch on Xtrends generates a fee.

This fee is used to:

- Buy XFEE from the market
- Burn the purchased XFEE
- Reduce circulating supply

---

## 2. Buy & Burn From Trading Fees (NEW)

All tokens launched on Xtrends have a **5% trading fee**.

This fee is:

- Collected in **SOL**
- A portion is converted into XFEE
- XFEE is **bought from the market and burned**

**Impact:**

- Continuous burn pressure from **every trade**
- XFEE demand scales with **trading volume**
- Creates a **high-frequency buyback loop**

---

## 3. Stake XFEE to Earn XFEE

XFEE holders can stake tokens to earn rewards.

**Benefits:**

- Encourages long-term holding

- Reduces circulating supply
- Strengthens ecosystem alignment

**Staking Allocation:** 100,000 XFEE
**Duration:** 2 years

---

### 4. Mine XFEE With Power Packs

Users can mine XFEE using a gamified system.

- Every user gets **1 free base miner**
- Mining power is increased using **Power Packs**
- Higher power = higher share of rewards

---

## XFEE Power Packs

# XFEE Value Loop

---

# Why This Model Is Powerful

XFEE is not dependent on a single event.

It captures value from:

Archived copy · cryp2nova.com

- **One-time events** → Token launches
- **Continuous activity** → Trading volume

This creates:

- A **dual burn engine**
- Both **low-frequency (launch)** and **high-frequency (trading)** demand
- Strong alignment with platform growth

---

## XFEE in One Line

**XFEE is the burn engine of Xtrends — powered by both token launches and trading activity, rewarding long-term participants through staking and mining.**
