Overview

CRYP2NOVA

Zircuit Finance is a secure platform bringing institutional-grade strategies onchain.

The platform was created to address persistent credit and security risks by combining traditional risk frameworks, enforceable protections, and transparent reporting with onchain execution. Zircuit Finance integrates trusted institutions and top DeFi protocols to diversify exposure across regulated and decentralized venues.

Our institutional partners include: Fidelity, Monarq Asset Management, Forteus, FalconX, B2C2 and more.

Key Platform Specs

Archived copy · cryp2nova.com
