# 👋 Introduction

Copy

**zkSwap Finance is a multichain decentralized exchange that offers a Swap2Earn model, designed to provide incentives for both liquidity providers and traders.**

Originally launched on zkSync Era (Ethereum Layer 2), zkSwap has since expanded across multiple blockchain networks, with more integrations continually underway. We offer a novel and imaginative DeFi experience where every contribution is recognized. Our platform is built around user-centric features and a strong commitment to sustainable ecosystem growth across all supported chains.

We encourage you to read our Ethos & Value ↗ to learn more about our commitments.
